DEPARTMENT:	Safety
LOCATION:	Brawley, CA
REPORTING TO:	Safety Manager
COMPENSATION:	Market competitive and experience dependent
APPLY TO:	careers@equinoxgold.com with subject line "Mesquite - Safety"

EQUINOX GOLD CORP.

Equinox Gold has a multi-million-ounce gold reserve base and a strong production growth profile from three wholly-owned gold mines. Equinox Gold's strategy is to become a diversified mid-tier gold producer within the next three years. The Company is delivering on that strategy, growing from a single-asset developer to a gold producer in just two years, and is on track to have three mines in production by mid-2020. The Company is in production at its Mesquite Mine in California, its Aurizona Mine in Brazil is on track to achieve commercial production around the end of Q1-2019, and its Castle Mountain Mine in California is expected to commence Phase 1 production in H1-2020.

POSITION OBJECTIVES

The Sr. Health & Safety Specialist is responsible for conducting all onsite Industrial Hygiene (IH) testing, analysis, evaluation, recommendation of controls, training and program creation and implementation

KEY PERFORMANCE OBJECTIVES

- Primary responsibility for ensuring regulatory compliance and instituting site policy and best practices for all onsite IH sampling and analysis (noise, dust, weld fume, mercury, lead, vibration)
- Provide guidance to site management on sampling results, analysis, supportive corrective actions utilizing hierarchy of controls
- Train employees and take a proactive role in identifying and monitoring IH hazards in the workplace
- Assist as necessary with employee wellness programs/activities
- Interact with regulatory agencies (MSHA and Cal/OSHA)
- Assist as necessary with injury case management
- Assume weekend / after-hours emergency on-call responsibility as scheduled
- Maintain accurate records and compile reports on all program functions
- Assist with additional safety and health activities as required

MINIMUM EDUCATION OR SUBSTITUTED EXPERIENCE

- Bachelors in Occupational Safety and Health, IH or equivalent
- Masters Degree in IH or equivalent, preferred
- CIH, CAOHC certification and pulmonary function certificate, preferred

MINIMUM EXPERIENCE REQUIRED

- At least 3 years of experience in IH at an industrial site, preferred mining site OR at least 5 years of experience in Safety with IH job duties in an industrial setting

SKILLS

- Productive efficiency in Microsoft Word, Excel and PowerPoint

EQUIPMENT

- Sampling equipment such as air pumps, noise dosimeters, heat stress monitors, calibrators, audiometric sound booth, and pulmonary function spirometry device
