

Cautionary Notes

Forward-looking Statements. This presentation contains certain forward-looking information and forward-looking statements within the meaning of applicable securities legislation and may include future-oriented financial information. Forward-looking statements and forward-looking information in this presentation relate to, among other things: the strategic vision for Equinox Gold and expectations regarding exploration potential, production capabilities and future financial or operational performance; Equinox Gold's ability to successfully advance its growth and development projects, including the commissioning of Santa Luz, the construction of Greenstone and the expansions at Los Filos. Castle Mountain and Aurizona: the expectations for Equinox Gold's investments in Solaris. i-80 Gold, Pilar Gold and Bear Creek; Equinox Gold's production and cost guidance; and conversion of Mineral Resources to Mineral Reserves. Forward-looking statements or information generally identified by the use of the words "believe". "will". "advancing". "strategy". "plans". "budget". "anticipated". "expected". "estimated". "target". "objective" and similar expressions and phrases or statements that certain actions, events or results "may", "could", or "should", or the negative connotation of such terms, are intended to identify forward-looking statements and information. Although Equinox Gold believes that the expectations reflected in such forward-looking statements and information are reasonable, undue reliance should not be placed on forward-looking statements since Equinox Gold can give no assurance that such expectations will prove to be correct. The Company has based these forwardlooking statements and information on Equinox Gold's current expectations and projections about future events and these assumptions include: Equinox Gold's ability to achieve the exploration, production, cost and development expectations for its respective operations and projects; prices for gold remaining as estimated; currency exchange rates remaining as estimated; commissioning of Santa Luz and construction of Greenstone being completed and performed in accordance with current expectations: expansion projects at Los Filos. Castle Mountain and Aurizona being completed and performed in accordance with current expectations; tonnage of ore to be mined and processed; ore grades and recoveries; availability of funds for Equinox Gold's projects and future cash requirements; capital, decommissioning and reclamation estimates; Mineral Reserve and Mineral Resource estimates and the assumptions on which they are based; prices for energy inputs, labour, materials, supplies and services; no labour-related disruptions and no unplanned delays or interruptions in scheduled construction. development and production, including by blockade or industrial action; Equinox Gold's working history with the workers, unions and communities at Los Filos; all necessary permits, licenses and regulatory approvals are received in a timely manner, including for the RDM tailings storage facility raise; Equinox Gold's ability to comply with environmental, health and safety laws and other regulatory requirements; the strategic visions for i-80 Gold, Solaris Resources. Pilar Gold and Bear Creek and their respective abilities to successfully advance their projects; the ability of Pilar Gold and Bear Creek to meet their respective payment commitments to Equinox Gold; and the ability of Equinox Gold to work productively with its joint venture partner and Indigenous partners at Greenstone. While Equinox Gold considers these assumptions to be reasonable based on information currently available, they may prove to be incorrect. Accordingly, readers are cautioned not to put undue reliance on the forward-looking statements or information contained in this presentation. The Company cautions that forward-looking statements and information involve known and unknown risks, uncertainties and other factors that may cause actual results and developments to differ materially from those expressed or implied by such forward-looking statements and information contained in this presentation and Equinox Gold has made assumptions and estimates based on or related to many of these factors. Such factors include, without limitation: fluctuations in gold prices; fluctuations in prices for energy inputs, labour, materials, supplies and services; fluctuations in currency markets; operational risks and hazards inherent with the business of mining (including environmental accidents and hazards, industrial accidents, equipment breakdown, unusual or unexpected geological or structural formations, cave-ins, flooding and severe weather); inadequate insurance, or inability to obtain insurance to cover these risks and hazards; employee relations; relationships with, and claims by, local communities and indigenous populations; Equinox Gold's ability to

obtain all necessary permits, licenses and regulatory approvals in a timely manner or at all, including for the RDM tailings storage facility raise; changes in laws, regulations and government practices, including environmental, export and import laws and regulations; legal restrictions relating to mining including those imposed in connection with COVID-19: risks relating to expropriation; increased competition in the mining industry; a successful relationship between Equinox Gold and Orion; the failure by Pilar Gold or Bear Creek to meet their respective payment commitments to Equinox Gold; and those factors identified in the section titled "Risks and Uncertainties" in Equinox Gold's MD&A dated May 3, 2022 for the three months ended March 31, 2022, the section titled "Risks and Uncertainties" in Equinox Gold's MD&A dated March 23, 2022 for the year ended December 31, 2021, and in the section titled "Risks Related to the Business" in Equinox Gold's Annual Information Form dated March 24, 2022 for the year ended December 31, 2021, all of which are available on SEDAR at www.sedar.com and on EDGAR at www.sec.gov/edgar. Forward-looking statements and information are designed to help readers understand management's views as of that time with respect to future events and speak only as of the date they are made. Except as required by applicable law, Equinox Gold assumes no obligation to update or to publicly announce the results of any change to any forward-looking statement or information contained or incorporated by reference to reflect actual results, future events or developments, changes in assumptions or changes in other factors affecting the forward-looking statements and information. If Equinox Gold updates any one or more forward-looking statements, no inference should be drawn that Equinox Gold will make additional updates with respect to those or other forwardlooking statements. All forward-looking statements and information contained in this presentation are expressly qualified in their entirety by this cautionary statement.

Non-IFRS Measures. This presentation includes certain non-IFRS measures, namely: cash costs; cash costs per ounce (oz) sold; all-in sustaining costs (AISC); AISC per oz sold; and sustaining and non-sustaining capital expenditures. Such measures are "non-GAAP financial measures", "non-GAAP ratios", "supplementary financial measures" or "capital management measures" (as such terms are defined in National Instrument 52-112 – Non-GAAP and Other Financial Measures Disclosure). Equinox Gold believes these measures, while not a substitute for measures of performance prepared in accordance with IFRS, provide investors an improved ability to evaluate the underlying performance of the Company. These measures do not have any standardized meaning prescribed under IFRS, and therefore may not be comparable to the information provided by other issuers. Please see the information under the heading Non-IFRS Measures starting on page 39 of Equinox Gold's MD&A for the year ended December 31, 2021, which section is incorporated by reference in this presentation for a description of the non-IFRS financial measures noted above.

Cautionary Note to U.S. Investors Concerning Estimates of Reserves and Resources. Disclosure regarding the Company's mineral properties, including with respect to Mineral Reserve and Mineral Resource estimates included in this presentation, was prepared in accordance with National Instrument 43-101. NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. NI 43-101 differs significantly from the disclosure requirements of the Securities and Exchange Commission (the "SEC") generally applicable to U.S. companies. Accordingly, information contained in this presentation is not comparable to similar information made public by U.S. companies reporting pursuant to SEC disclosure requirements..

Numbers may not add due to rounding. All dollar amounts in USD unless otherwise noted.

Q1 2022 & Recent Highlights

Construction, development & exploration

- Santa Luz first gold pour March 30
 - Ramping up to commercial production
- Greenstone tracking on schedule and on budget
 - Project 20% complete
 - Detailed engineering 91% complete, plant earthworks 75% complete, site civil works and concrete foundation well advanced, tailings storage facility ahead of schedule
- Fazenda-Santa Luz drilling identified significant gold mineralization at multiple targets within haulage distance of the mines

Corporate

- Sold Mercedes Mine on April 21, 2022 to Bear Creek Mining for:
 - \$100 M cash with \$75 M paid on closing and \$25 M within six months
 - 24.7 M common shares of Bear Creek
 - 2% net smelter return
- Received \$40 M and transferred 5 M shares of Solaris for C\$10
- Exercised \$1 M warrants to purchase 1 M shares of Solaris at C\$6.75

Santa Luz first gold pour

Greenstone construction on schedule

Fazenda-Santa Luz district exploration success

Strengthened balance sheet

Q1 2022 Operating Results

Health, safety, environment

- Total recordable injury frequency rate in Q1 2022 of 3.76 per M hours worked, 3.01 rolling 12-month average¹
- Significant environmental incident frequency rate of 0.00

Consolidated operating results

- Produced 117,452 oz gold
- Sold 119,324 oz gold at realized gold price of \$1,862/oz
- Cash costs \$1,238/oz, mine AISC \$1,578/oz gold sold²
 - AISC includes \$7.7 M (\$65/oz) inventory write down (Los Filos and RDM)
- Invested \$37 M of sustaining capital and \$91 M of non-sustaining capital

Q1 2022 Financial Highlights & Recent Developments

Consolidated financial results

- Revenue \$223.2 M
- Mine operating earnings \$28.5 M
- Adjusted EBITDA \$43.4 M¹
- Net loss \$19.8 million / \$(0.07) (basic) per share
- Adjusted net loss \$23.9 M / \$(0.08) (basic) per share¹
 - Excludes \$18.7 M unrealized loss on change in fair value of share purchase warrants, \$10.5 M unrealized foreign exchange loss, \$18.1 M unrealized gain on foreign exchange contracts and \$5.4 M unrealized gain on gold contracts
- Cash flow from operations \$33.5 M (\$16.4 M cash flow used in operations after changes in working capital)

Liquidity and capital position

- March 31, 2022 cash and equivalents (unrestricted) \$151.2 M
- Net debt \$385.1 M (including \$278.9 M of convertible notes)^{1,2}
- During April received \$75 M on closing of the Mercedes sale and \$40 M on exercise of Solaris warrants issued by the Company

MINE OPERATING EARNINGS
DURING Q1

Operating Mines: USA and Mexico

Mesquite Mine, California

- 2022 guidance: 120,000-130,000 oz of gold
- Opening up new ore body, exploration in multiple deposits, 60% of production expected in H2 2022
- Q1 2022: 17,050 oz produced, AISC \$1,142/oz, \$1.2 M sustaining capital

Castle Mountain, California

- 2022 guidance: 25,000-35,000 oz of gold
- Introducing crushing and agglomeration to increase recoveries, expanding the leach pad, in March filed permit application for Phase 2 expansion to +200,000 oz/year
- Q1 2022: 5,231 oz produced, AISC \$2,338/oz, \$6.5 M sustaining capital

Los Filos Mine, Guerrero

- · 2022 guidance: 160,000-180,000 oz of gold
- Achieved record 15.4 M open-pit tonnes moved, focused on open-pit stripping and developing Bermejal underground deposit to access higher-grade ore and increase production in H2 2022
- Q1 2022: 38,856 oz produced, AISC \$1,776/oz, \$4.8 M sustaining capital

Operating Mines: Brazil

Aurizona Mine, Maranhão

- 2022 guidance: 120,000-130,000 oz of gold
- High rainfall (1,200 mm) increased reliance on low-grade stockpiles in Q1, commencing installation of pebble crusher in 2022, advancing studies and permitting for underground expansion
- Q1 2022: 22,936 oz produced, AISC \$1,651/oz, \$15.0 M sustaining capital

Fazenda Mine, Bahia

- 2022 guidance: 60,000-65,000 oz of gold
- Increasing underground development to open up new stopes, exploration focused on mine life extension and Fazenda-Santa Luz mining district
- Q1 2022: 14,741 oz produced, AISC \$1,188/oz, \$3.1 M sustaining capital

RDM Mine, Minas Gerais

- 2022 guidance: 70,000-80,000 oz of gold
- Pumping water from TSF¹ to open pit reduced access to higher-grade ore during Q1²
- Discussions ongoing with regulators regarding permit for next scheduled TSF raise³
- Q1 2022: 7,160 oz produced, AISC \$1,824/oz, \$1.0 M sustaining capital

Santa Luz Project: First Gold Pour March 30th

First gold pour, March 30, 2022

Ramping up to commercial production

- Past producing mine: refurbished existing infrastructure and retrofitted processing plant
- \$103 M construction capex
- Average 100,000 oz gold life-of-mine
- Completed construction with no lost-time injuries
- First gold pour March 30, 2022
- Commissioning underway to ramp up to commercial production
- 2022 guidance: 70,000-90,000 oz of gold

Santa Luz: Site Facilities

Greenstone Project: Construction Underway

Aerial overview of admin buildings and plant site, March 2022

Building one of the largest gold mines in Canada

- Developed by Equinox Gold (60%) and Orion (40%)
- 5.5 Moz gold reserves with significant exploration upside1
- More than 5 Moz oz gold over initial 14-year mine life
- More than 400,000 oz/year production for first five years
- Excellent infrastructure, adjacent to the Trans-Canada Hwy
- ~2 years of construction and 6 months of commissioning
- First gold pour targeted for H1 2024

Q1 2022

- \$585 M contracted (100%) = ~50% budgeted value
- \$360 M fixed contracts placed (100%) = ~31% budgeted value
- \$39.5 M spent by Equinox Gold (EQX share)
- Overall project 20% complete, tracking on schedule, on budget
- Detailed engineering 91% complete
- TSF ahead of schedule, plant earthworks 75% complete
- Site civil works and concrete foundation well advanced

ANALYST COVERAGE

BMO Capital Markets, Canaccord Genuity, CIBC World Markets, Cormark Securities, Desjardins, Haywood Securities, National Bank Financial, Scotiabank, Stifel GMP, RBC Capital Markets, TD Securities

- 1. Basic basis as at May 3, 2022.
- 2. Weighted average warrant and option exercise prices are shown at the price that would be paid to Equinox Gold to receive one full EQX share. Warrant and option numbers are shown as the number of common shares that would be issued upon exercise of the securities.
- 3. Restricted Share Units are shares committed to management and directors that are issued subject to time-based and performance-based vesting terms, as part of equity-based compensation.
- 4. Fully diluted shares outstanding includes the Mubadala and Pacific Road convertible notes. See footnote 8.
- 5. Average daily trading value since January 2021.
- 6. Cash on hand at March 31, 2022 + \$115 M received in April.
- 7. Net debt comprises \$200 M from the senior revolving credit facility and \$80 M from the senior amortizing credit facility, and includes equity settled notes. See footnote 8.
- 8. Face value of the convertible notes held by Mubadala Investment Company and Pacific Road Resources Fund. Mubadala holds notes of \$130M and Pacific Road of \$9.7M, convertible at a fixed US\$ price of \$5.25 per share at the holders' option. Mubadala also holds a second \$130M note and Pacific Road holds \$9.3M convertible at a fixed US\$ price of \$7.80 per share at the holder's option. If both notes were fully converted, the Company would issue 44.5 M shares.
- 9. Calculated using the April 30, 2022 share price for EQX.

2022 Guidance: Investing for Growth and Long-term Production

Fourth consecutive year of production growth

Scientific and technical information concerning the **Hasaga Property** is summarized, derived, or extracted from the "National Instrument 43-101 Technical Report: Hasaga Project Red Lake Mining District, Ontario, Canada NTS MAP Sheets 52K/13 AND 52N/04" prepared by MRB & Associates for Premier Gold with an effective date of December 30, 2016. The Hasaga technical report is available on SEDAR under Premier Gold's profile.

Readers are reminded that results outlined in the technical reports for some of these projects are preliminary in nature and may include Inferred Mineral Resources that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as Mineral Reserves.

There is no certainty that the mine plans and economic models contained in any of the reports will be realized. Readers are further cautioned that Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability. Readers are also advised to refer to the latest annual information form and technical reports of the Companies as well as other continuous disclosure documents filed by the Companies, which are available on SEDAR, for detailed information (including qualifications, assumptions and notes set out accordingly) regarding the Mineral Reserve and Mineral Resource information contained in this document

Qualified Persons

Doug Reddy, MSc, P.Geo., Equinox Gold's COO, and Scott Heffernan, MSc, P.Geo, Equinox Gold's EVP Exploration, are the Qualified Persons under NI 43-101 for Equinox Gold and have reviewed and approved the technical information in this presentation.

Doug Reddy and Scott Heffernan have reviewed the technical reports for the Greenstone and the Hasaga Property for Equinox Gold. To the best of Equinox Gold's knowledge, information and belief, there is no new material scientific or technical information that would make the disclosure of the mineral resource and mineral reserves or other technical information for the Greenstone Project or the Hasaga Property inaccurate or misleading.
