Cautionary Notes

Forward-looking Statements. This presentation contains certain forward-looking information and forward-looking statements within the meaning of applicable securities legislation and may include future-oriented financial information. Forward-looking statements and forward-looking information in this presentation relate to, among other things: the strategic vision for Equinox Gold and expectations regarding exploration potential, production capabilities and future financial or operational performance; Equinox Gold's ability to successfully advance its growth and development projects, including the expansion of the Bermejal underground and construction of the CIL Plant at Los Filos, the expansions at Castle Mountain and Aurizona and the construction of Greenstone; the expectations for Equinox Gold's investments in Solaris, Sandbox Royalties, i-80 Gold and Bear Creek; Equinox Gold's production and cost guidance; and conversion of Mineral Resources to Mineral Reserves. Forward-looking statements or information generally identified by the use of the words "believe", "will", "strategy", "plans", "on budget", "on track", "on schedule", "expected", "estimated", "target", "objective" and similar expressions and phrases or statements that certain actions, events or results "may", "could", or "should", or the negative connotation of such terms, are intended to identify forward-looking statements and information. Although Equinox Gold believes that the expectations reflected in such forward-looking statements and information are reasonable, undue reliance should not be placed on forward-looking statements since Equinox Gold can give no assurance that such expectations will prove to be correct. The Company has based these forward-looking statements and information on Equinox Gold's current expectations and projections about future events and these assumptions include: Equinox Gold's ability to achieve the exploration, production, cost and development expectations for its respective operations and projects; prices for gold remaining as estimated; currency exchange rates remaining as estimated; availability of funds for the Company's projects and future cash requirements; prices for energy inputs, labour, materials, supplies and services remaining as estimated; the construction of Greenstone being completed and performed in accordance with current expectations; expansion projects at Los Filos, Castle Mountain and Aurizona being completed and performed in accordance with current expectations; tonnage of ore to be mined and processed; ore grades and recoveries; availability of funds for Equinox Gold's projects and future cash requirements; capital, decommissioning and reclamation estimates; Mineral Reserve and Mineral Resource estimates and the assumptions on which they are based;; no labour-related disruptions and no unplanned delays or interruptions in scheduled construction, development and production, including by blockade or industrial action; Equinox Gold's working history with the workers, unions and communities at Los Filos; all necessary permits, licenses and regulatory approvals are received in a timely manner, including for tailings storage facility raises; Equinox Gold's ability to comply with environmental, health and safety laws and other regulatory requirements; the strategic visions for i-80 Gold, Solaris Resources, Sandbox Royalties and Bear Creek and their respective abilities to successfully advance their projects; the ability of Pilar Gold and Bear Creek to meet their respective payment commitments to Equinox Gold; and the ability of Equinox Gold to work productively with its joint venture partner and Indigenous partners at Greenstone. While Equinox Gold considers these assumptions to be reasonable based on information currently available, they may prove to be incorrect. Accordingly, readers are cautioned not to put undue reliance on the forward-looking statements or information contained in this presentation. The Company cautions that forward-looking statements and information involve known and unknown risks, uncertainties and other factors that may cause actual results and developments to differ materially from those expressed or implied by such forward-looking statements and information contained in this presentation and Equinox Gold has made assumptions and estimates based on or related to many of these factors. Such factors include, without limitation: fluctuations in gold prices; fluctuations in prices for energy inputs, labour, materials, supplies and services; fluctuations in currency markets; operational risks and hazards inherent with the business of mining (including environmental accidents and hazards, industrial accidents, equipment breakdown, unusual or unexpected geological or structural formations, cave-ins, flooding and severe weather); inadequate insurance, or inability to obtain insurance to cover these risks and hazards; employee

relations; relationships with, and claims by, local communities and indigenous populations; Equinox Gold's ability to obtain all necessary permits, licenses and regulatory approvals in a timely manner or at all, including for tailings storage facility raises; changes in laws, regulations and government practices, including environmental, export and import laws and regulations; legal restrictions relating to mining; risks relating to expropriation; increased competition in the mining industry; the failure by Pilar Gold or Bear Creek to meet their respective payment commitments to Equinox Gold; and those factors identified in the section titled "Risks and Uncertainties" in Equinox Gold's MD&A dated March 23, 2022 for the year ended December 31, 2021, and in the section titled "Risks Related to the Business" in Equinox Gold's Annual Information Form dated March 24, 2022 for the year ended December 31, 2021, both of which are available on SEDAR at www.sedar.com and on EDGAR at www.sec.gov/edgar. Forward-looking statements and information are designed to help readers understand management's views as of that time with respect to future events and speak only as of the date they are made. Except as required by applicable law, Equinox Gold assumes no obligation to update or to publicly announce the results of any change to any forward-looking statement or information contained or incorporated by reference to reflect actual results, future events or developments, changes in assumptions or changes in other factors affecting the forward-looking statements and information. If Equinox Gold updates any one or more forward-looking statements, no inference should be drawn that Equinox Gold will make additional updates with respect to those or other forward-looking statements. All forward-looking statements and information contained in this presentation are expressly qualified in their entirety by this cautionary statement.

Non-IFRS Measures. This presentation includes certain non-IFRS measures, namely: cash costs; cash costs per ounce (oz) sold; all-in sustaining costs (AISC); AISC per oz sold; adjusted net loss; and sustaining and non-sustaining capital expenditures. Such measures are "non-GAAP financial measures", "non-GAAP ratios", "supplementary financial measures" or "capital management measures" (as such terms are defined in National Instrument 52-112 – Non-GAAP and Other Financial Measures Disclosure). Equinox Gold believes these measures, while not a substitute for measures of performance prepared in accordance with IFRS, provide investors an improved ability to evaluate the underlying performance of the Company. These measures do not have any standardized meaning prescribed under IFRS, and therefore may not be comparable to the information provided by other issuers. Please see the information under the heading Non-IFRS Measures starting on page 39 of Equinox Gold's MD&A for the year ended December 31, 2021, which section is incorporated by reference in this presentation for a description of the non-IFRS financial measures noted above.

Cautionary Note to U.S. Investors Concerning Estimates of Reserves and Resources. Disclosure regarding the Company's mineral properties, including with respect to Mineral Reserve and Mineral Resource estimates included in this presentation, was prepared in accordance with National Instrument 43-101. NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. NI 43-101 differs significantly from the disclosure requirements of the Securities and Exchange Commission (the "SEC") generally applicable to U.S. companies. Accordingly, information contained in this presentation is not comparable to similar information made public by U.S. companies reporting pursuant to SEC disclosure requirements.

Readers are reminded that results outlined in the technical reports for some of these projects are preliminary in nature and may include Inferred Mineral Resources that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as Mineral Reserves.

There is no certainty that the mine plans and economic models contained in any of the reports will be realized. Readers are further cautioned that Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability. Readers are also advised to refer to the latest annual information form and technical reports of the Companies as well as other continuous disclosure documents filed by the Companies, which are available on SEDAR, for detailed information (including qualifications, assumptions and notes set out accordingly) regarding the Mineral Reserve and Mineral Resource information contained in this document.

Qualified Persons

Doug Reddy, MSc, P.Geo., Equinox Gold’s COO, and Scott Heffernan, MSc, P.Geo, Equinox Gold’s EVP Exploration, are the Qualified Persons under NI 43-101 for Equinox Gold and have reviewed and approved the technical information in this presentation.

Doug Reddy and Scott Heffernan have reviewed the technical reports for the Greenstone and the Hasaga Property for Equinox Gold. To the best of Equinox Gold’s knowledge, information and belief, there is no new material scientific or technical information that would make the disclosure of the mineral resource and mineral reserves or other technical information for the Greenstone Project or the Hasaga Property inaccurate or misleading.
