EQUINOXGOLD

Creating the Premier Americas Gold Producer

Q1 2024 RESULTS & CORPORATE UPDATE MAY 9, 2024

Cautionary Notes

Forward-looking Statements. Forward-looking Statements. This presentation contains certain forward-looking information and forward-looking statements within the meaning of applicable securities legislation and may include future-oriented financial information or financial outlook information. Actual results of operations and the ensuing financial results may vary materially from the amounts set out in future-oriented financial information or financial outlook information. Forward-looking statements and forward-looking information in this presentation relate to, among other things: the strategic vision for the Company and expectations regarding exploration potential, production capabilities, growth potential, and future financial or operational performance, including investment returns; the Company's production and cost guidance, including pro forma guidance; timing for and the Company's ability to successfully advance its growth and development projects, including commissioning of Greenstone and the expansion projects at Castle Mountain, Los Filos and Aurizona; the Company's ability to successfully complete the Transaction and the timing thereof; the completion and closing of the Term Loan; the company's ability to pay the deferred payment in connection with the Transaction; the timing of Greenstone achieving first gold pour and commercial production; the anticipated benefits of consolidating ownership of Greenstone; the Company's ability to successfully renegotiate existing land access agreements at Los Filos and the anticipated impact on Los Filos if those negotiations are unsuccessful; the ability of the Company to mitigate the impact of the geotechnical event in the Piaba pit on planned 2024 production from Aurizona; the timing and the ability of the Company to complete an updated assessment of the Piaba pit; the strength of the Company's balance sheet, and the Company's liquidity and future cash requirements; the Company's ability to execute on its deleveraging plans; expectations for gold price performance; and expectations for the Company's investments including in Sandbox, i-80 Gold and Bear Creek. Forward-looking statements or information generally identified by the use of the words "will", "expect", "achieve", "potential", "on track", "plan", "enhance", "guidance", "improve", "target", "opportunity" and similar expressions and phrases or statements that certain actions, events or results "could", "would" or "should", or the negative connotation of such terms, are intended to identify forward-looking statements and information. Although the Company believes that the expectations reflected in such forward-looking statements and information are reasonable, undue reliance should not be placed on forward-looking statements since the Company can give no assurance that such expectations will prove to be correct. The Company has based these forward-looking statements and forward-looking information on the Company's current expectations and projections about future events and these assumptions include: Equinox Gold's ability to achieve the exploration, production, cost and development expectations for its respective operations and projects; that existing assets are retained and continue to produce at current rates; expectations regarding the impact of macroeconomic factors on the Company's operations, share price performance and gold price; prices for gold remaining as estimated; currency exchange rates remaining as estimated; the availability of funds for the Company's projects and future cash requirements; prices for energy inputs, labour, materials, supplies and services remaining as estimated; commissioning of Greenstone being completed and performed in accordance with current expectations; the expansion projects at Castle Mountain, Los Filos and Aurizona being completed and performed in accordance with current expectations; the Company's ability to identify and implement opportunities to mitigate the impact of the geotechnical event at Aurizona; that mine plans and estimated development schedules remain consistent with the plans outlined in the technical reports for each project; that tonnage of ore to be mined and processed, and ore grades and recoveries, remain consistent with the plans outlined in the technical reports for each project; Mineral Reserve and Mineral Resource estimates and the assumptions on which they are based; no labour-related disruptions and no unplanned delays or interruptions in scheduled construction, development and production, including by blockade; the Company's working history with the workers, unions and communities at Los Filos; that all necessary permits, licenses and regulatory approvals are received in a timely manner; the Company's ability to comply with environmental, health and safety laws; the strategic visions for Sandbox, i-80 Gold and Bear Creek, and their respective abilities to successfully advance their businesses; the ability of Bear Creek to meet its payment commitments to the Company; and the ability of Equinox Gold to work productively with its Indigenous partners at Greenstone. While the Company considers these assumptions to be reasonable based on information currently available, they may prove to be incorrect. Accordingly, readers are cautioned not to put undue reliance on the forward-looking statements or information contained in this presentation. The Company cautions that forward-looking statements and information involve known and unknown risks, uncertainties and other factors that may cause actual results and

developments to differ materially from those expressed or implied by such forward-looking statements and information contained in this presentation and the Company has made assumptions and estimates based on or related to many of these factors. Such factors include, without limitation: fluctuations in gold prices; fluctuations in prices for energy inputs, labour, materials, supplies and services; fluctuations in currency markets; operational risks and hazards inherent with the business of mining (including environmental accidents and hazards, geotechnical failures, industrial accidents, equipment breakdown, unusual or unexpected geological or structural formations, cave-ins, flooding and severe weather); inadequate insurance, or inability to obtain insurance to cover these risks and hazards; employee relations; relationships with, and claims by, local communities and Indigenous populations; the effect of blockades and community issues on the Company's production and cost estimates; the Company's ability to obtain all necessary permits, licenses and regulatory approvals in a timely manner or at all; changes in laws, regulations and government practices, including environmental, export and import laws and regulations; legal restrictions relating to mining; risks relating to expropriation; increased competition in the mining industry; the failure by Bear Creek to meet its payment commitments to the Company; and those factors identified in the Company's MD&A for the year ended December 31, 2023 and its most recently filed Annual Information Form, copies of which are available on SEDAR+ at www.sedarplus.ca and on EDGAR at www.sec.gov/edgar. Forward-looking statements and information are designed to help readers understand management's views as of that time with respect to future events and speak only as of the date they are made. Except as required by applicable law, the Company assumes no obligation to publicly announce the results of any change to any forward-looking statement or information contained or incorporated by reference to reflect actual results, future events or developments, changes in assumptions or changes in other factors affecting the forward-looking statements and information. If the Company updates any one or more forward-looking statements, no inference should be drawn that the Company will make additional updates with respect to those or other forward-looking statements. All forward-looking statements and information contained in this presentation are expressly qualified in their entirety by this cautionary statement.

Non-IFRS Measures. This presentation refers to all-in sustaining costs ("AISC") per ounce sold and sustaining capital which are measures with no standardized meaning under International Financial Reporting Standards ("IFRS") and may not be comparable to similar measures presented by other companies. Their measurement and presentation are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. Non-IFRS measures are widely used in the mining industry as measurements of performance and the Company believes that they provide further transparency into costs associated with producing gold and will assist analysts, investors and other stakeholders of the Company in assessing its operating performance, its ability to generate free cash flow from current operations and its overall value. Refer to the "Non-IFRS measures" section of the Company's MD&A for the year ended December 31, 2023, for a more detailed discussion of these non-IFRS measures and their calculation.

Cautionary Note to U.S. Investors Concerning Estimates of Reserves and Resources. Disclosure regarding the Company's mineral properties, including with respect to Mineral Reserve and Mineral Resource estimates included in this presentation, was prepared in accordance with National Instrument 43-101. NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. NI 43-101 differs significantly from the disclosure requirements of the Securities and Exchange Commission (the "SEC") generally applicable to U.S. companies. Accordingly, information contained in this presentation is not comparable to similar information made public by U.S. companies reporting pursuant to SEC disclosure requirements.

Numbers may not sum due to rounding. All dollar amounts in USD unless otherwise noted.

Consolidating Greenstone Ownership: Key Transaction Terms

Transaction	Equinox Gold to acquire the remaining 40% interest in Greenstone Gold Mine GP Inc. from certain funds managed by Orion Mine Finance Management LP, consolidating 100% ownership of the Greenstone Mine to Equinox Gold
Consideration	 Equinox Gold will pay \$995 million to acquire Orion's 40% interest in the Greenstone Mine, payable as follows: 42.0 million common shares of Equinox Gold valued at \$250 million; \$705 million in cash payable on closing; and \$40 million in cash payable by December 31, 2024
Financing	 Equinox Gold will fund the cash consideration with net proceeds from: A new \$500 million, 3-year term loan; and A bought deal equity financing of 56.4 million common shares of Equinox Gold at a price of \$5.30 per share for gross proceeds of approximately \$299 million
Conditions	Subject to customary closing conditions and receipt of certain regulatory and other approvals. The Transaction does not require shareholder approval
Expected Timing	Expected to close in Q2 2024

Consolidating Greenstone Brings Significant Benefits

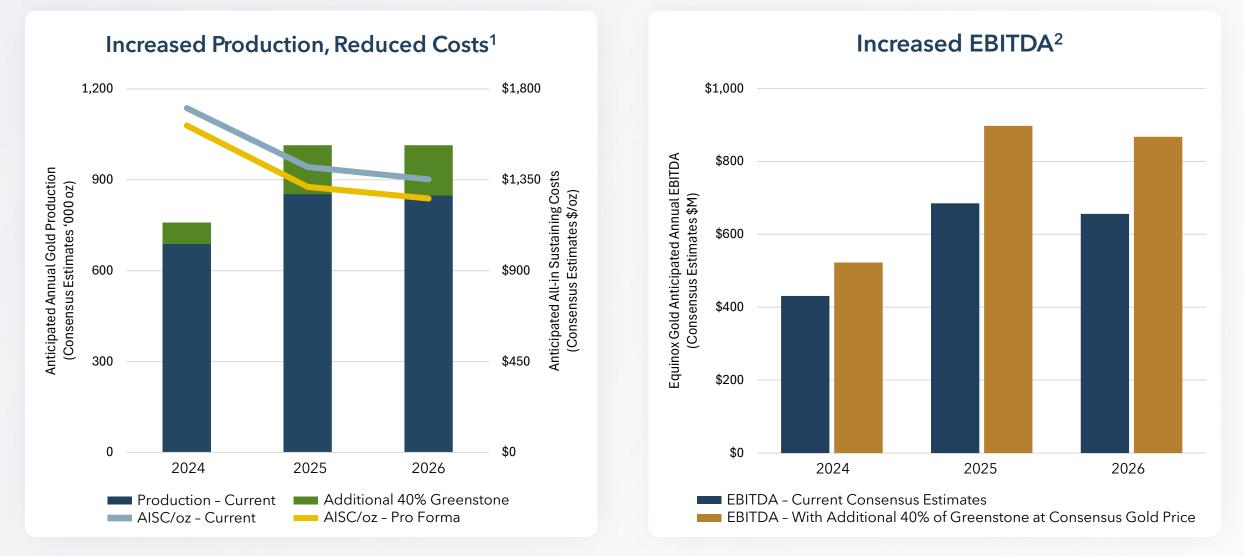

Acquiring the additional 40% interest in Greenstone gives EQX

- Increased gold production Additional 160,000 oz of gold per year for first five years (144,000 per year LOM)¹
- Improved cost structure Greenstone will contribute ~40% of EQX annual production at AISC less than \$975/oz²
- Increased cash flow More than \$200 M in additional EBITDA per year to Equinox Gold when operating at capacity³
- Enhanced diversification Rare opportunity to own 100% of a tier-one mine in a top mining jurisdiction
- Increased gold endowment Adds 2.2 Moz of Mineral Reserves, 0.6 Moz of M&I Resources and 1.2 Moz of Inferred Resources⁴
- Increased scale Positions Equinox Gold as one of Canada's largest gold producers
- Enhanced long-term growth profile Consolidates expansion potential from Greenstone open pit and underground deposits as well as multiple gold deposits over a 100-km trend

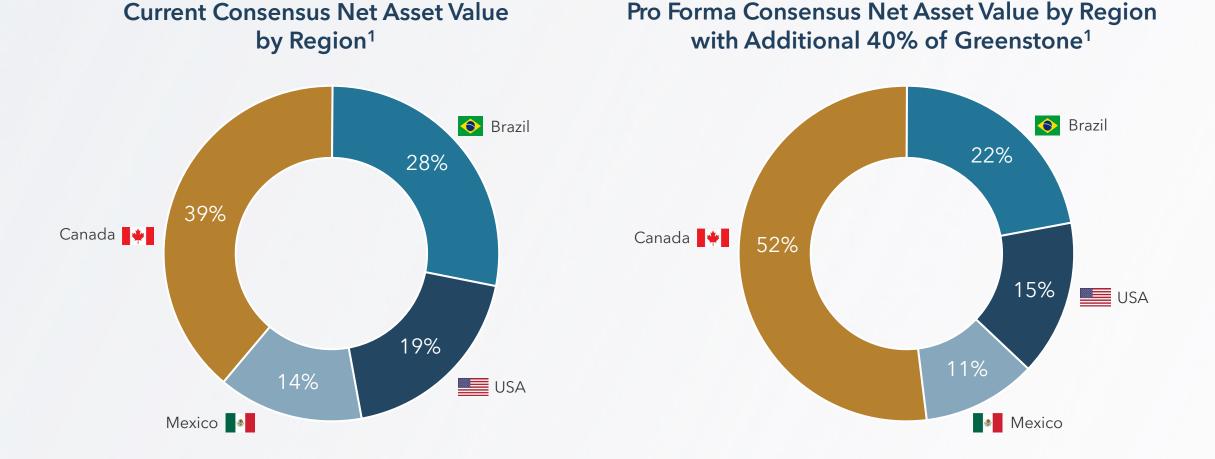

1. Additional 40% of estimated average annual production as per Greenstone technical report. See *Technical Disclosure*. 2. Based on analyst consensus production and cost estimates for 2025 and 2026, as available at April 19, 2024. 3. Based on analyst consensus gold prices. 4. Calculated using 40% of Greenstone Mineral Reserve and Mineral Resource estimates outlined in the Greenstone technical report. M&I = Measured & Indicated. Mineral Resources are exclusive of Mineral Reserves. See *Technical Disclosure*.

Additional Low-cost Gold Production Increases Cash Flow

1. Based on analyst consensus estimates at April 19, 2024 for production and all-in-sustaining costs. 2. Based on analyst consensus estimates at April 19, 2024 for current EBITDA. Pro forma EBITDA calculated using analyst consensus production, cash cost and gold price estimates.

Enhanced Diversification into Top-tier Mining Jurisdiction

Pro Forma 2024 Guidance: 780,000 oz of Gold^{1, 2}

CURRENT GUIDANCE

660,000 - 750,000 oz of gold \$1,340 - \$1,445 cash costs per oz \$1,630 - \$1,740 AISC per oz

PRO FORMA GUIDANCE

730,000 - 830,000 oz of gold \$1,285 - \$1,390 cash costs per oz \$1,565 - \$1,675 AISC per oz

Equinox Gold: 7 Mines, 4 Countries, 1 New Mine in 2024

Q1 2024: Operating & Corporate Results

Health, Safety & Environment	Two lost-time injuries during the Quarter Total recordable injury frequency rate: 1.55 for rolling 12-month period ¹	Produced 111,725 oz
	Significant environmental incident frequency rate: 0.30 for rolling 12-month period ¹	Sold
Consolidated	Produced 111,725 oz of gold	116,504 oz
Operating	Sold 116,504 oz of gold at realized gold price of \$2,066 per oz	
Results	Cash costs ² of \$1,567 per oz, mine AISC ² of \$1,950 per oz	Cash costs ¹
	Invested \$44.6 M of sustaining and \$69.3 M of non-sustaining expenditures	\$1,567/oz

	Castle Mountain Phase 2 permitting underway	Greenstone
	Aurizona new Tatajuba pit license received, mining commenced	
		First gold pour on track for May

Q1 2024 & Post Quarter End: Financial Results

Q1 2024
Financial Results

Financial Results Earnings fro EBITDA \$27 Adjusted EB Net loss \$42	Revenue \$241.3 M Earnings from mine operations \$11.4 M EBITDA \$27.7 M Adjusted EBITDA \$52.2 M Net loss \$42.8 M / \$0.13 per share (basic) Adjusted net loss \$14.4 M / \$0.04 per share (basic)		Revenue ~\$241 M Earnings from mine operations ~\$11 M
	 Adjustments include an \$18.4 M loss on unrealized foreign exchange contracts and a \$10.6 M unrealized loss on gold contracts Cash flow from operations \$47.7 M (\$17.9 M after changes in working capital) 		Adjusted EBITDA ~\$52 M
Post Quarter End	Drew \$60 M on revolving credit facility Extended 2019 and 2020 convertible notes Announced transaction to consolidate 100% of Greenstone Completed bought-deal equity financing of 56.4 M shares at \$5.30 per share		Adjusted EPS (\$0.04)
	for gross proceeds of \$299 M Arranged \$500 M 3-year term loan to fund Greenstone acquisition; includes the		Cash flow from operations ¹
	requirement to hedge 15% of anticipated gold production through mid-2026		~\$48 M

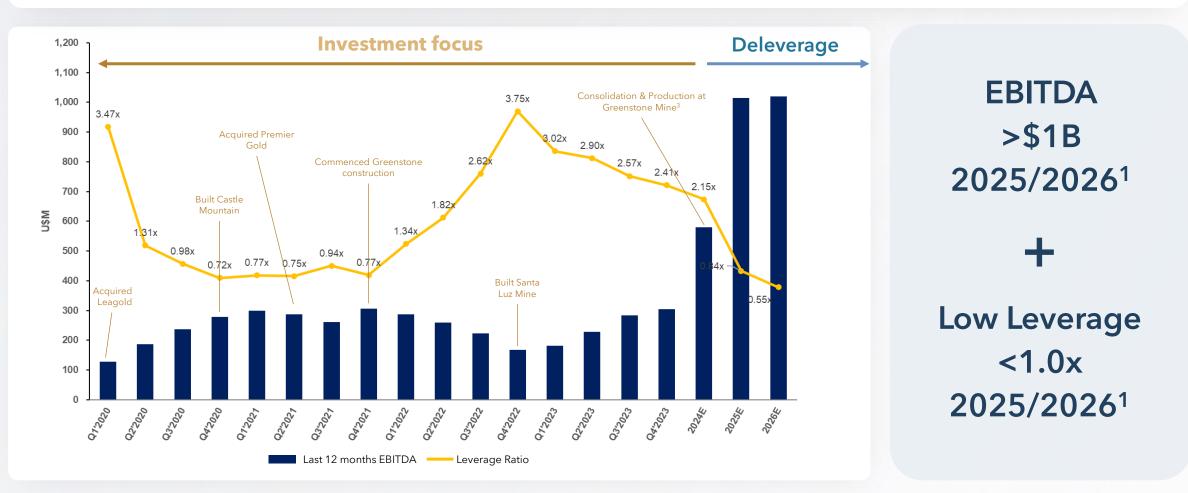

Financial Position at March 31, 2024¹

AVAILABLE LIQUIDITY	RESILIENCE	DEBT			
Unrestricted cash ~\$125 M ²	Equity investments ⁴ ~\$100 M	Drawn debt ³ \$535 M			
Undrawn credit facility ³ \$165 M	Ongoing cash flow from seven operating mines	Convertible notes ⁶ \$451 M (\$6.04/share avg.)			
	Undrawn accordion ⁵ \$100 M				
~\$125 м	+ ~\$100м +	~\$165 м			

1. All figures on this slide are as at March 31, 2024, as reported in the Company's Q1 2024 financial results, unless otherwise noted. 2. Equinox Gold had \$125 M in unrestricted cash at the end of March 31, 2024, drew \$60 M on its revolving credit facility on April 9, 2024 and on April 26, 2024 completed an equity financing for \$266 M, of which \$205 M was used to fund the acquisition of an additional 40% of the Greenstone Mine, as announced on April 23, 2024. 3. Equinox Gold has a \$700 M revolving credit facility, of which \$535 M was drawn at March 31, 2024 and an additional \$60 M was drawn on April 9, 2024. In addition, the Company has arranged a new \$500 M Term Loan to fund the acquisition of an additional 40% of the Greenstone Mine, that will be completed when the Transaction closes. 4. Approximate market value at May 6, 2024 of the Company's investments in i-80 Gold, Bear Creek Mining, Inca One, Pilar Gold and Sandbox Royalties. See *Cautionary Notes*. 5. The accordion feature is subject to lender approval prior to being available for draw. 6. Subsequent to March 31, 2024, there are three convertible notes outstanding: \$139.7 M due Oct 2024 at \$5.25, \$139.3 M due Sep 2025 at \$6.50 and \$172.5 M due Oct 2028 at \$6.30. If all convertible notes were converted to shares, a total of 75.4 M shares would be issued.

Deleveraging Plan

Focus on funding growth through 2024, with a shift in focus to debt reduction 2025+ through significantly increased EBITDA and cash flow from owning 100% of Greenstone

1. Based on analyst consensus EBITDA, Net Debt and Gold Price estimates for 2024, 2025 and 2026, as available at May 1, 2024. Average consensus gold price for 2024, 2025 and 2026: \$2,221/oz, \$2,240/oz and \$2,113/oz, respectively. Leverage Ratio = Net Debt / Trailing twelve-month EBITDA. 2. Historical adjusted EBITDA and Net Debt figures for Q1'2020 - Q4'2023 are based on the Company's filed quarterly Management Discussion & Analysis. 3. Commissioning is underway with first gold pour on track for H1 2024; Pro forma consolidation of the Greenstone gold project as per pending transaction announced on April 23, 2024.

Operating Mines: USA and Mexico

Mesquite Mine, California, USA

Q1 2024: 22,025 oz of gold with \$1,153/oz cash costs and \$1,188/oz AISC¹ **Q1 2024:** Stripping in Ginger pit; finished Vista East pit; additional ore from Don Juan pit **2024 plan:** Production mostly from drawdown of leach pad inventory from H2 2023; stripping the Ginger pit with majority of ore coming in Q1 2025

Castle Mountain Mine, California, USA

Q1 2024: 4,716 oz of gold with \$2,303/oz cash costs and \$2,618/oz AISC¹ **Q1 2024:** Crush and agglomeration with minimal ROM stacking on leach pad **2024 plan:** Mining and processing low-grade mineralized dump material that needs to be removed from open pits in anticipation of mining for Phase 2 operations

Los Filos Mine, Guerrero, Mexico

Q1 2024: 23,955 oz of gold with \$1,761/oz cash costs and \$2,424/oz AISC¹ **Q1 2024:** Suspended crushing while conveyor being moved; drawing down leach pad inventory; positive reconciliation on open pit mining; behind in Los Filos underground **2024 plan:** Continue optimization efforts to improve efficiencies and reduce costs; continue dialogue to seek new community agreements

Operating Mines: Brazil

Aurizona Mine, Maranhão O1 2024: 23,857 oz of gold, \$1,360/oz cash costs, \$1,973/oz AISC¹ O1 2024: Waste stripping; processing

mostly stockpile ore; commissioned Vené 2 TSF

2024 plan: Suspended Piaba open pit in April; commenced mining in Tatajuba open pit

Fazenda Mine, Bahia

Q1 2024: 14,402 oz of gold, \$1,510/oz cash costs, \$1,745/oz AISC¹

Q1 2024: Change of open pit mining contractor affected mine plan; delayed access to some higher-grade underground stopes

2024 plan: Plant feed 35% open pit, 65% underground; catch up in Q3-Q4

RDM Mine, Minas Gerais

Q1 2024: 10,932 oz of gold, \$1,709/oz cash costs, \$1,801/oz AISC¹

Q1 2024: Change in rental mining fleet being operated by RDM personnel; received permit for dry stack tailings

2024 plan: Owner mining and in-pit dumping to reduce costs; start dry stack tailings in H2 2024

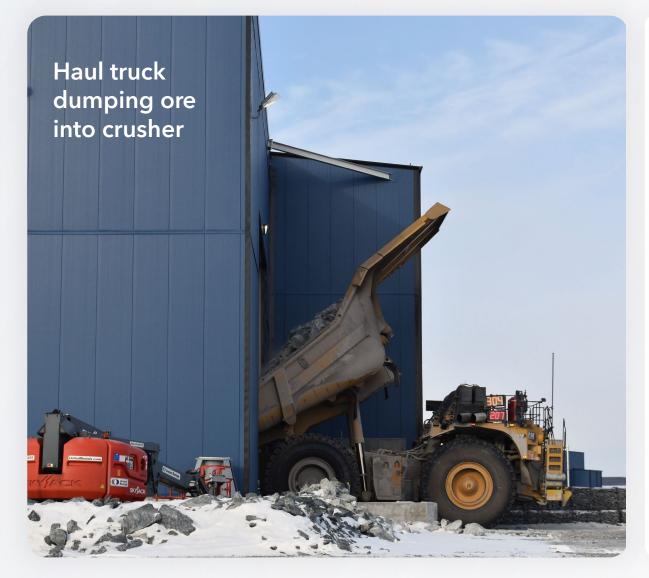

Santa Luz Mine, Bahia

Q1 2024: 11,836 oz of gold, \$2,053/oz cash costs, \$2,519/oz AISC¹

Q1 2024: Plant throughout and recoveries affected by modifications to elutions, electrowinning

2024 plan: Recoveries improved in April; trunnion installation and desliming circuit planned for Q2-Q3²

Greenstone Processing Ore, Gold Pour on Track for May

Progress at April 30, 2024

Commissioning progress	First ore introduced into HPGR and grinding circuit on April 6
Production targets	First gold pour in May Commercial production in Q3
Ore stockpile	More than 1.5 M tonnes of ore stockpiled for startup
Tailings facility	Permitted and in use
Permits	Received all permits required for commissioning activities
Hiring	All plant operations positions filled with experienced operators

Greenstone Will Be a Cornerstone Asset for Equinox Gold

~400,000 oz gold

EXPECTED PER YEAR^{1,2}

INITIAL MINE LIFE

AVERAGE GRADE

~5.5 Moz ~2.6 Moz

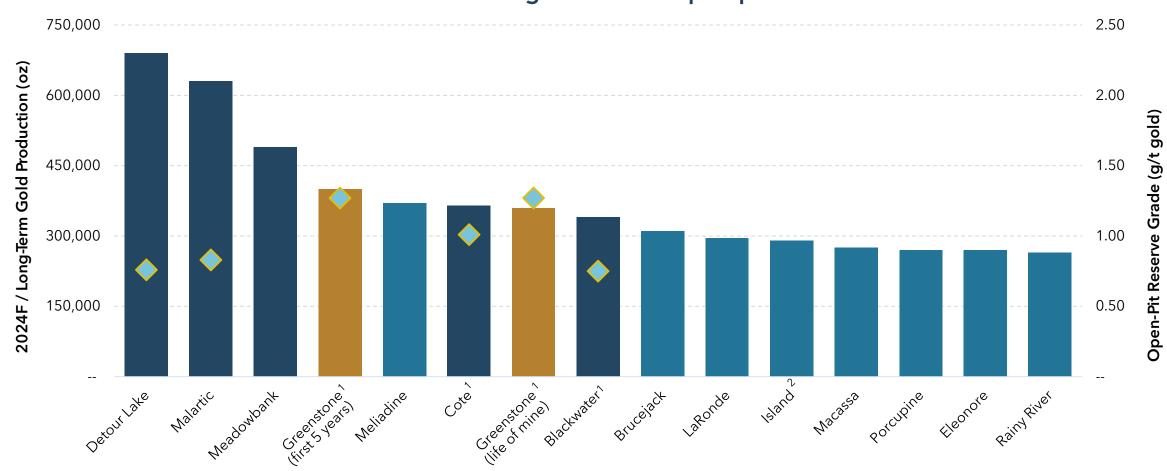

P&P RESERVES²

M&I RESOURCES²

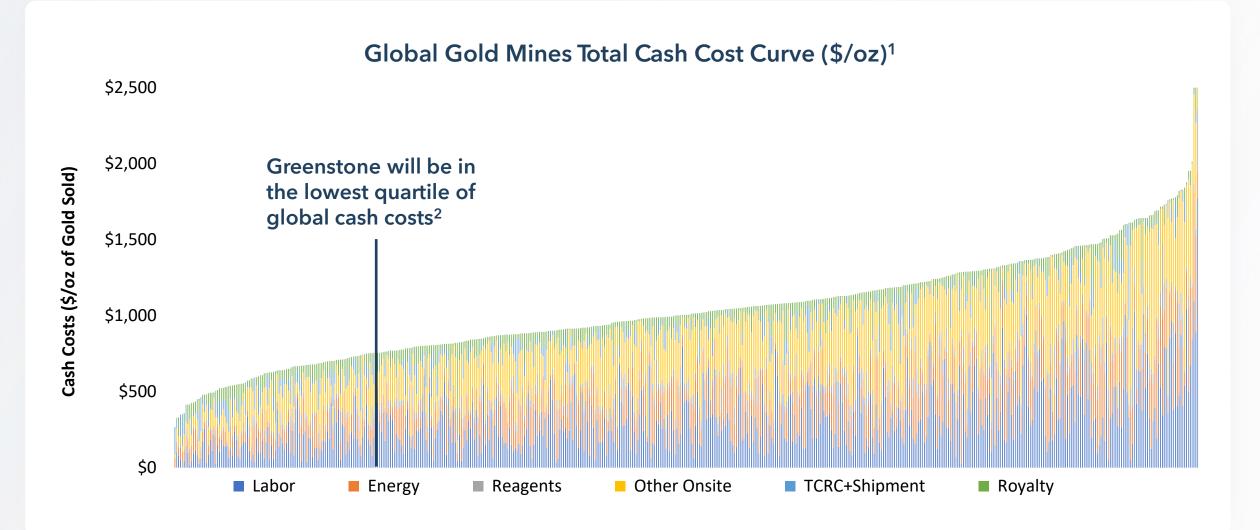

1. Average annual production for the first five years. 2. See Technical Disclosure.

Greenstone Will Be One of Canada's Largest Gold Mines...

... And One of Canada's Highest Grade Open-pit Gold Mines

Greenstone Will Be One of the World's Lowest-Cost Gold Mines

1. Source: CaplQ at March 31, 2024. 2. Equinox Gold's 2024 cash cost guidance for Greenstone is \$690 - \$790/oz, which represents the expected cost of gold production after commercial production is achieved. At April 19, 2024, analyst consensus Greenstone cash cost estimates show \$776/oz for 2024, \$796/oz for 2025 and \$772/oz for 2026. Cash costs/oz is a non-IFRS measure. See *Cautionary Notes*.

Opportunities to Extend Greenstone Mine Life, Increase Production

Greenstone underground

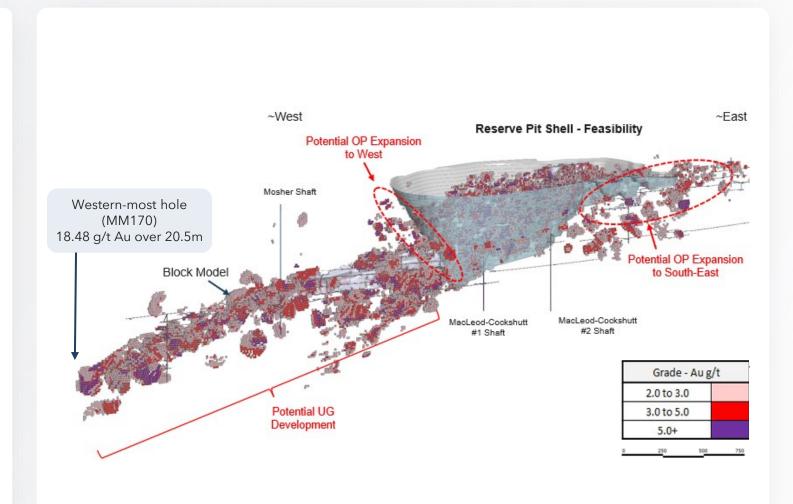

- 9.79 Mt at 3.93 g/t gold (1.2 Moz Indicated) and 24.59 Mt at 3.87 g/t gold (3.1 Moz Inferred)¹
- Not included in current mine life economics – analysis to be advanced through 2024

Greenstone open pit

 Potential expansion of the open-pit to the southeast and west

Expand throughput

 Power and equipment available and designed to support 30 ktpd throughput

Greenstone Near-mine & Belt-scale Exploration Potential

2024 Will Be a Transformative Year for Equinox Gold

Exposure to strong and rising gold prices

Near-term, low-cost production growth from a world-class mine at the beginning of its mine life in one of the world's best mining jurisdictions

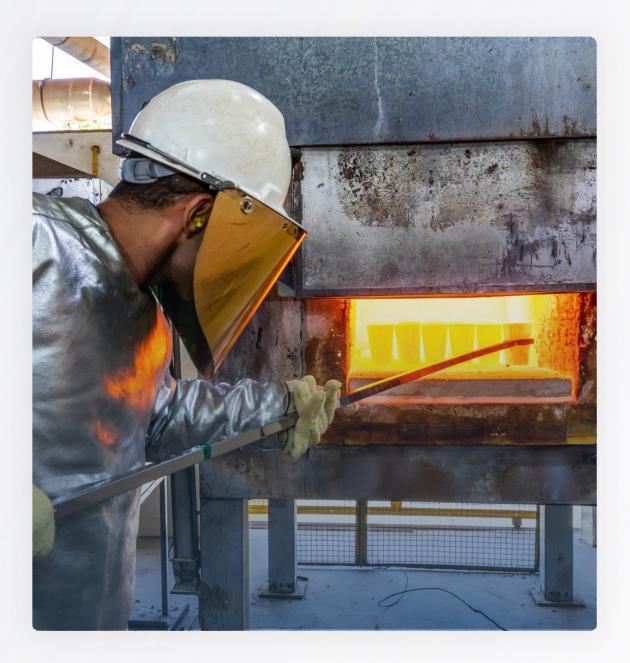

Increased cash flow with lower consolidated operating costs

Greenstone production and consolidation pivots EQX to a large gold producer

ANALYST COVERAGE

BMO Capital Markets, Canaccord Genuity, CIBC World Markets, Cormark Securities, Desjardins Securities, Haywood Securities, National Bank Financial, Scotiabank, RBC Capital Markets, TD Securities

1. Basic basis at May 8, 2024, as announced in the Company's Q1 2024 MD&A.

2. Weighted average option exercise prices are shown at the price that would be paid to Equinox Gold to receive one full EQX share. Option numbers are shown as the number of common shares that would be issued upon exercise of the securities.

3. Restricted Share Units are shares committed to management and directors that are issued subject to time-based and performance-based vesting terms, as part of equity-based compensation.

4. Fully diluted shares outstanding includes the Mubadala, Verition and Pacific Road convertible notes and the convertible note issued on September 21, 2023. See footnote 8.

5. Average daily shares traded since January 2023.

6. Equinox Gold had \$125 M in unrestricted cash at the end of March 31, 2024, drew \$60 M on its revolving credit facility on April 9, 2024 and on April 26, 2024 completed an equity financing for \$266 M, of which \$205 M was used to fund the acquisition of an additional 40% of the Greenstone Mine, as announced on April 23, 2024

7. Equinox Gold has a \$700 M revolving credit facility, of which \$535 M was drawn at March 31, 2024. An additional \$60 M was drawn on April 9, 2024. In addition, the Company has arranged a new \$500 M Term Loan to fund the acquisition of an additional 40% of the Greenstone Mine, that will be completed when the Transaction closes.

8. Face value of the convertible notes held by Mubadala Investment Company, Verition Advisors (Canada) ULC, Pacific Road Resources Fund and various holders. Mubadala and Verition hold notes of \$130 M and \$9.7 M, respectively, convertible at a fixed US\$ price of \$5.25 per share at the holders' option, expiring in October 2024. Mubadala and Pacific Road hold notes of \$130 M and \$9.3 M, respectively, convertible at a fixed US\$ price of \$6.50 per share at the holders' option, expiring in October 2024. Mubadala and Pacific Road hold notes of \$130 M and \$9.3 M, respectively, convertible at a fixed US\$ price of \$6.50 per share at the holders' option, expiring in October 2028 with a conversion price of US\$6.30 per share. If all convertible notes were fully converted, the Company would issue 75.4 M shares.

9. Calculated using the May 8, 2024 share price for Equinox Gold.

Technical Disclosure

National Instrument 43-101

Scientific and technical information concerning the Los Filos Mine Complex is summarized, derived, or extracted from the "Updated Technical Report for the Los Filos Mine Complex, Mexico" dated June 30, 2022 with an effective date of October 19, 2022. The Los Filos technical report has been filed with Canadian securities regulatory authorities and is available for review on Equinox Gold's website at www.equinoxgold.com, on Equinox Gold's profile on SEDAR+ at www.sedarplua.ca and on Equinox Gold's profile on EDGAR at www.sec.gov/edgar. Scientific and technical information concerning the Mesquite Mine is summarized, derived, or extracted from the "Technical Report on the Mesquite Gold Mine, Imperial County, California, U.S.A." prepared by AGP Mining Consultants Inc. dated April 27, 2020 with an effective date of December 31, 2019. The Mesquite technical report has been filed with Canadian securities regulatory authorities and is available for review on the Company's website and on Equinox Gold's profile on SEDAR+. Mesquite Mineral Reserve and Mineral Resources were updated at June 30, 2020 with the results announced in a news release dated October 8, 2020 which is available on Equinox Gold's website, on SEDAR+ and on EDGAR. Scientific and technical information concerning the Aurizona Mine is summarized, derived, or extracted from the "Technical Report on the Aurizona Gold Mine Expansion Pre-Feasibility Study" prepared by AGP Mining Consultants Inc. dated November 4, 2021 with an effective date of September 20, 2021. The Aurizona technical report has been filed with Canadian securities regulatory authorities and is available for review on Equinox Gold's website, on SEDAR+ and on EDGAR. Scientific and technical information concerning the Fazenda Mine is summarized, derived, or extracted from the "NI 43-101 Technical Report on the Fazenda Brasileiro Mine, Bahia State, Brazil" prepared by Equinox Gold Corp. dated October 22, 2021 with an effective date of December 31, 2020. The Fazenda technical report has been filed with Canadian securities regulatory authorities and is available for review on Equinox Gold's website, on SEDAR+ and on EDGAR. Scientific and technical information concerning the RDM Mine is summarized, derived, or extracted from the "NI 43-101 Technical Report on the Riacho dos Machados Gold Mine, Minas Gerais, Brazil" prepared by Equinox Gold Corp. dated October 22, 2021 with an effective date of December 31, 2020. The RDM technical report has been filed with Canadian securities regulatory authorities and is available for review on Equinox Gold's website, on SEDAR+ and on EDGAR. Scientific and technical information concerning the Castle Mountain Mine is summarized, derived, or extracted from the "Technical Report on the Castle Mountain Project Feasibility Study" prepared by M3 Engineering & Technology Corp. dated March 17, 2021 with an effective date of February 26, 2021. The Castle Mountain technical report has been filed with Canadian securities regulatory authorities and is available for review on Equinox Gold's website, on SEDAR+ and on EDGAR. Scientific and technical information concerning the Santa Luz Project is summarized, derived, or extracted from the "NI 43-101 Technical Report on the Santa Luz Project, Bahia State, Brazil" prepared by Equinox Gold Corp. dated November 30, 2020 with an effective date of June 30, 2020. The Santa Luz technical report has been filed with Canadian securities regulatory authorities and is available for review on Equinox Gold's website, on SEDAR+ and on EDGAR. Scientific and technical information concerning the Greenstone Project is summarized, derived, or extracted from the "NI 43-101 Technical Report, Hardrock Project, Ontario, Canada" prepared by G. Mining Services Inc. for Premier Gold Mines Limited dated January 26, 2021 with an effective date of December 16, 2020. The Greenstone technical report is available on Equinox Gold's website and on SEDAR+ under Premier Gold's profile.

Scientific and technical information concerning the Hasaga Property is summarized, derived, or extracted from the "National Instrument 43-101 Technical Report: Hasaga Project Red Lake Mining District, Ontario, Canada NTS MAP Sheets 52K/13 AND 52N/04" prepared by MRB & Associates for Premier Gold with an effective date of December 30, 2016. The Hasaga technical report is available on SEDAR+ under Premier Gold's profile.

Readers are reminded that results outlined in the technical reports for some of these projects are preliminary in nature and may include Inferred Mineral Resources that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as Mineral Reserves.

There is no certainty that the mine plans and economic models contained in any of the reports will be realized. Readers are further cautioned that Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability. Readers are also advised to refer to the latest annual information form and technical reports of the Companies as well as other continuous disclosure documents filed by the Companies, which are available on SEDAR+, for detailed information (including qualifications, assumptions and notes set out accordingly) regarding the Mineral Reserve and Mineral Resource information contained in this document.

Qualified Persons

Doug Reddy, MSc, P.Geo., Equinox Gold's COO, is a Qualified Person under NI 43-101 for Equinox Gold and has reviewed and approved the technical information in this presentation. Scott Heffernan, MSc, P.Geo, Equinox Gold's EVP Exploration, is a Qualified Person under NI 43-101 for Equinox Gold and has reviewed and approved the technical information in this presentation related to exploration results and Mineral Reserve and Mineral Resource estimates.

Doug Reddy and Scott Heffernan have reviewed the technical reports for the Greenstone and the Hasaga Property for Equinox Gold. To the best of Equinox Gold's knowledge, information and belief, there is no new material scientific or technical information that would make the disclosure of the mineral resource and mineral reserves or other technical information for the Greenstone Project or the Hasaga Property inaccurate or misleading.
