

## About This Report

Our annual Environmental, Social and Governance (ESG) Report summarizes our goals and performance over the past year and our targets and priorities for the current year.

### Reporting Scope

This report focuses on ESG-related topics that are deemed “material” to our business and our stakeholders, as determined through a materiality assessment process (refer to section [ESG Material Topics](#)). The report presents our commitments, approach and performance in addressing these issues, as well as learnings and challenges. Where possible, we guide readers to additional sources of information including our website, corporate policies and other Company documents. Previous ESG reports are available at <https://www.equinoxgold.com/corporate-governance/filings>.

This report discusses ESG performance at all of Equinox Gold’s wholly-owned operations and subsidiaries. We also include information regarding our Greenstone Project that during 2023 was advanced in a joint venture with Orion Mine Finance Group (Orion), with Equinox Gold holding a 60% interest and Orion 40%. On April 23, 2024, Equinox Gold announced that it will acquire the remaining 40% interest and consolidate 100% ownership of Greenstone to

Equinox Gold, with the transaction expected to close in Q2 2024.

### Reporting Period and Measurement

In some sections, we also provide data for previous fiscal years to present performance trends. Any restatements or significant changes from the previous report are described where relevant.

All dollar amounts in this report are in United States dollars unless otherwise noted.

### Reporting Standards and Frameworks

Our ESG reporting framework is informed by the Global Reporting Initiative (GRI) and the Sustainability Accounting Standards Board (SASB). On our website, we provide data tables that summarize our performance against relevant GRI and SASB metrics. [GRI and SASB Index](#)

### Content Preparation and Review

We strive to offer a clear, accurate and balanced account of our ESG performance. To achieve this, the information provided in this report is prepared by our ESG Team in collaboration with relevant personnel and departments across the Company, and is then reviewed by internal subject-matter experts, senior management, an internal ESG Working Group and the Board of Director’s (Board) ESG Committee. Certain key metrics of the report were internally assured. No external assurance was performed but this is planned for future years. This report was approved for publication on May 8, 2024.
