CORPORATE PRESENTATION

JANUARY 2026

# Cautionary Notes

**Forward-looking Statements.** This presentation contains certain forward-looking information and forward-looking statements within the meaning of applicable securities legislation and may include future-oriented financial information or financial outlook information (collectively "Forward-looking Information"). Actual results of operations and the ensuing financial results may vary materially from the amounts set out in any Forward-looking Information. Forward-looking Information in this presentation includes: the Company's strategic vision and expectations for exploration potential, production capabilities, growth potential, expansion projects and future financial or operating performance, including shareholder returns; the satisfaction of the conditions precedent and receipt and anticipated effects of the regulatory approvals for the Brazil operations sale (*Brazil Transaction*); the anticipated timing of closing of the Brazil Transaction or at all; realization of the contingent cash consideration; expectations for Greenstone and Valentine operations, including achieving design capacity; anticipated 2026 production and cost guidance; timing of year end financial results; potential future mining opportunities around Valentine; receipt of required approvals and permits and effectiveness of the FAST-41 designation for Castle Mountain Phase 2; the Company's ability to restart operations at Los Filos and the construction of a CIL plant; and the Company's ability to improve cash flow, reduce debt and self fund projects. Forward-looking Information is typically identified by words such as "believe", "will", "achieve", "grow", "plan", "expect", "estimate", "anticipate", "target", and similar terms, including variations like "may", "could", or "should", or the negative connotation of such terms. While the Company believes these expectations are reasonable, they are not guarantees and undue reliance should not be placed on them. Forward-looking Information is based on the Company's current expectations and assumptions, including: completion of the Brazil Transaction, achievement of exploration, production, cost and development goals; completion and ramp up at Valentine; achieving design capacity at Greenstone and Valentine operations; timely receipt of Castle Mountain permits and completion of Castle Mountain Phase 2; stable gold prices and input costs; availability of funding, accuracy of Mineral Reserve and Mineral Resource estimates; successful long-term agreements with Los Filos communities and management of suspended operations; adherence to mine plans and schedules; expected ore grades and recoveries; absence of labour disruptions or unplanned delays; productive relationships with workers, unions and communities; maintenance and timely receipt of permits and regulatory approvals; compliance with environmental and safety regulations; and constructive engagement with Indigenous and community partners. While the Company considers these assumptions reasonable, they may prove incorrect. Forward-looking Information involves numerous risks, uncertainties and other factors that may cause actual results and developments to differ materially from those expressed or implied by such Forward-looking Information. Such factors include failure to satisfy or waive the closing conditions to the Brazil Transaction; failure to receive the required regulatory approvals to effect the Brazil Transaction; changes in laws, regulations and government practices; and other risks and uncertainties described in the section "Risk Factors" in the Company's MD&A dated March 13, 2025 for the year ended December 31, 2024, and in the section titled "Risks Related to the Business" in Equinox Gold's most recently filed Annual Information Form which is available on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca) and on EDGAR at [www.sec.gov/edgar](http://www.sec.gov/edgar) and in the section "Risk Factors" in Calibre Mining's MD&A dated February 19, 2025 for the year ended December 31, 2024 and the section titled "Risk Factors" in Calibre Mining's most recently filed Annual Information Form which is available on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca). Forward-looking Information reflects management's current expectations for future events and is subject to change. Except as required by applicable law, the Company assumes no obligation to update or to publicly

announce the results of any change to any Forward-looking Information contained or incorporated by reference to reflect actual results, future events or developments, changes in assumptions or other factors affecting Forward-looking Information. If the Company updates any Forward-looking Information, no inference should be drawn that the Company will make additional updates with respect to those or other Forward-looking Information. All Forward-looking Information contained in this presentation is expressly qualified by this cautionary statement.

**Non-IFRS Measures.** This presentation refers to all-in sustaining costs (AISC) per ounce sold, sustaining capital and EBITDA (earnings before interest, taxes, depreciation and amortization) which are measures with no standardized meaning under International Financial Reporting Standards (IFRS) and may not be comparable to similar measures presented by other companies. Their measurement and presentation are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. Non-IFRS measures are widely used in the mining industry as measurements of performance and the Company believes that they provide further transparency into costs associated with producing gold and will assist analysts, investors and other stakeholders of the Company in assessing its operating performance, its ability to generate free cash flow from current operations and its overall value. Refer to the "Non-IFRS measures" section of the Equinox Gold's MD&A for the year ended December 31, 2024, and the "Non-IFRS measures" section of Calibre's MD&A for the year ended December 31, 2024, for a more detailed discussion of these non-IFRS measures and their calculation.

**Cautionary Note to U.S. Readers Concerning Estimates of Mineral Reserves and Mineral Resources.** Disclosure regarding mineral properties included in this presentation, was prepared in accordance with National Instrument 43-101 – Standards of Disclosure for Mineral Projects (NI 43-101). NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. NI 43-101 differs significantly from the disclosure requirements of the Securities and Exchange Commission (the SEC) generally applicable to U.S. companies. Accordingly, information contained in this presentation is not comparable to similar information made public by U.S. companies reporting pursuant to SEC disclosure requirements.

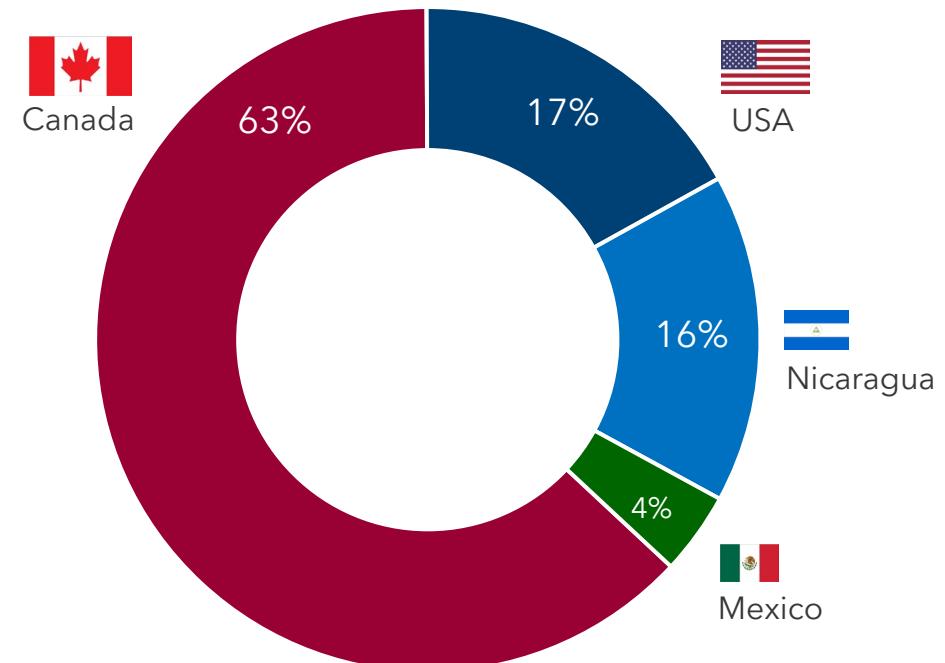

Numbers may not sum due to rounding. **All dollar amounts in USD unless otherwise noted.**

# Equinox Gold: Delivering a Top Quartile Gold Company

## Positioned to deliver top quartile valuation

- ✓ **Substantial, long-life assets:** 70% of consensus production from three mines with average 13 year mine life<sup>1</sup>
- ✓ **Tier 1 jurisdictions:** 70% of production and 80% of consensus NAV in North America<sup>2</sup>
- ✓ **Operational track record:** New operating team with a track record of delivering into commitments
- ✓ **Strong free cash flow:** Near term free cash flow growth from growing Canadian production and optimized portfolio
- ✓ **Capital returns:** Evaluating potential return of capital to shareholders
- ✓ **Strong balance sheet:** Greater flexibility to self fund growth<sup>3</sup>
- ✓ **Organic growth pipeline:** Ability to grow annual production from Valentine Phase 2, Castle Mountain and Los Filos; approximately +500,000 ounces of annual production potential

## Diversified portfolio weighted to Canada (Consensus Analyst NAV by Region)<sup>2</sup>

1. Based on analyst consensus estimates at January 12, 2026 and the mid-point of Equinox Gold's 2026 production guidance. 2. Portfolio weighting assuming successful completion of the Brazil Operations sale, based on analyst consensus estimates at December 31, 2025. 3. Subject to completion of the sale of Brazil Operations. See *Cautionary Notes*.

# Corporate Mission: Key Metrics to Achieve Top Quartile Valuation

## KEY METRICS

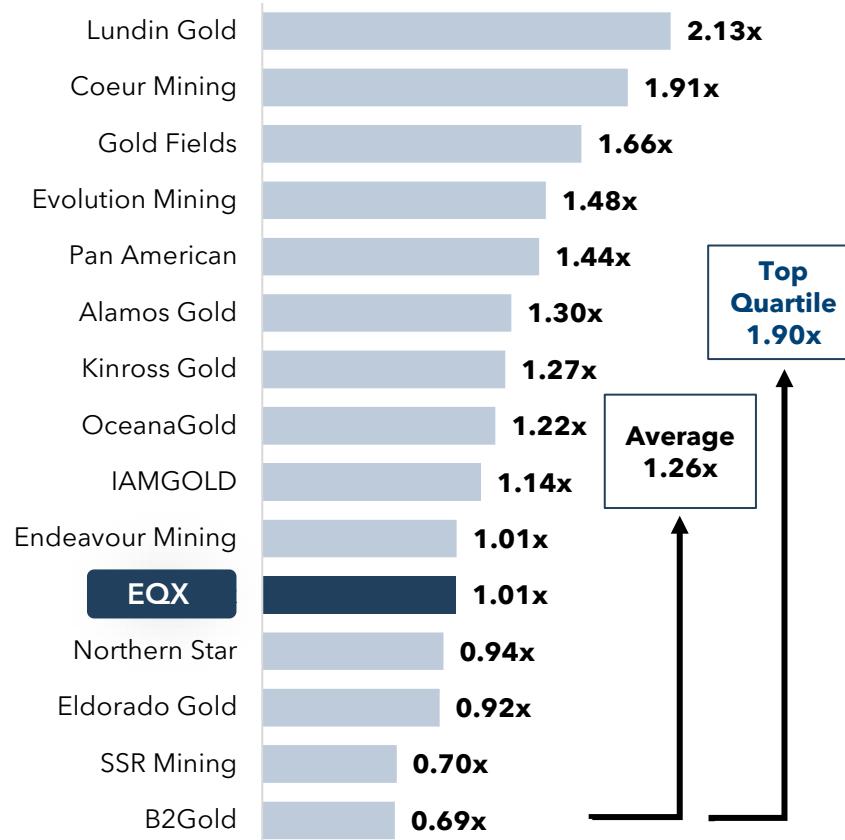

Tier 1 jurisdictions	91% of 2026E production 90% of consensus NAV	78% of 2026E production 89% of consensus NAV	70% of 2026E production <sup>1</sup> 80% of consensus NAV

## RAMPING UP

TARGET TO ACHIEVE DESIGN CAPACITY DURING 2026

1. As reported in the 2024 technical report. See Cautionary Notes, Appendix slides and Technical Disclosure.

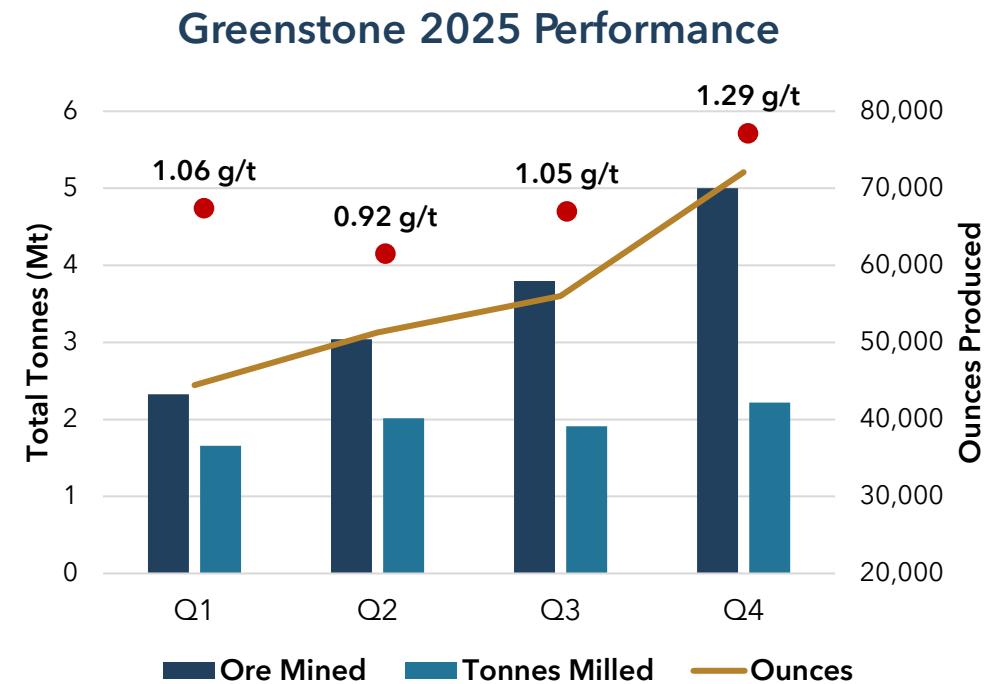

# Greenstone: Operational Improvements Yielding Positive Results

## Q4 2025 performance

- Produced 72,091 ounces, **29% increase vs Q3**
- Mining exceeded 198,000 tpd, **9% increase vs Q3 and 31% increase vs H1 2025**
  - Improved cycle times, equipment maintenance, shift transitions and hot seating
  - Implemented additional grade control protocols and tracking systems
- Mill throughput averaged 23,859 tpd, **15% increase vs Q3 and 17% increase vs H1 2025**
  - Throughput averaged nameplate of 27,000 tpd for 30 consecutive days ending December 20
- Process grades averaged 1.29 g/t gold, **23% increase vs Q3 and 32% increase vs H1 2025**

## Momentum into 2026

- Expect to reach nameplate capacity by mid 2026
- Guidance of 250,000 - 300,000 ounces at all-in sustaining costs of \$1,750 - \$1,850 per ounce

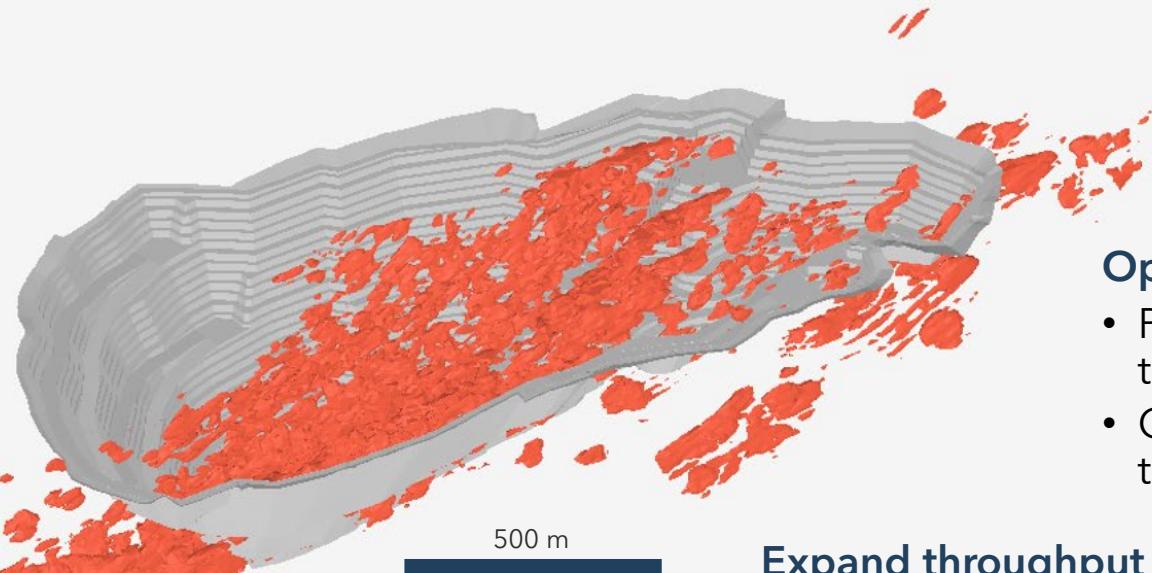

# Greenstone Upside: Extend Mine Life, Increase Production

## Greenstone Mine Geology

Isometric view  
looking Northeast

Red blocks show  
ore above 1 g/t Au

Westernmost drill hole (MM1170)  
intersected **20.5 m @ 18.49 g/t Au**

## Open pit

- Potential expansion of the open pit to the west
- Convert inferred resources within the open pit

## Expand throughput

- Power and equipment available and designed to support 30 ktpd throughput

## Underground

- 10.96 Mt at 4.20 g/t gold (1.5 Moz Indicated) and 19.48 Mt at 3.88 g/t gold (2.4 Moz Inferred)<sup>1</sup>
- **Not included in current mine life economics**

# Valentine: Newfoundland, Canada

**~180,000** oz gold

AVERAGE ANNUAL PRODUCTION, LIFE OF MINE<sup>1</sup>

P&P RESERVES<sup>1</sup>

**14+** year

INITIAL MINE LIFE

## RAMPING UP

FIRST GOLD POUR SEPTEMBER 14, COMMERCIAL  
PRODUCTION NOVEMBER 18 WITH TARGET TO ACHIEVE  
DESIGN CAPACITY BY Q2 2026

1. As reported in the 2022 feasibility study. See Cautionary Notes, Appendix slides and Technical Disclosure.

# Valentine: Ramping up in 2026

## 2025 commissioning

- First ore introduced on August 27
- First gold pour ahead of schedule on September 14
- Commercial production announced November 18

## Q4 2025 performance

- Throughput averaged 90% of nameplate in Q4
- Produced 23,207 ounces in Q4

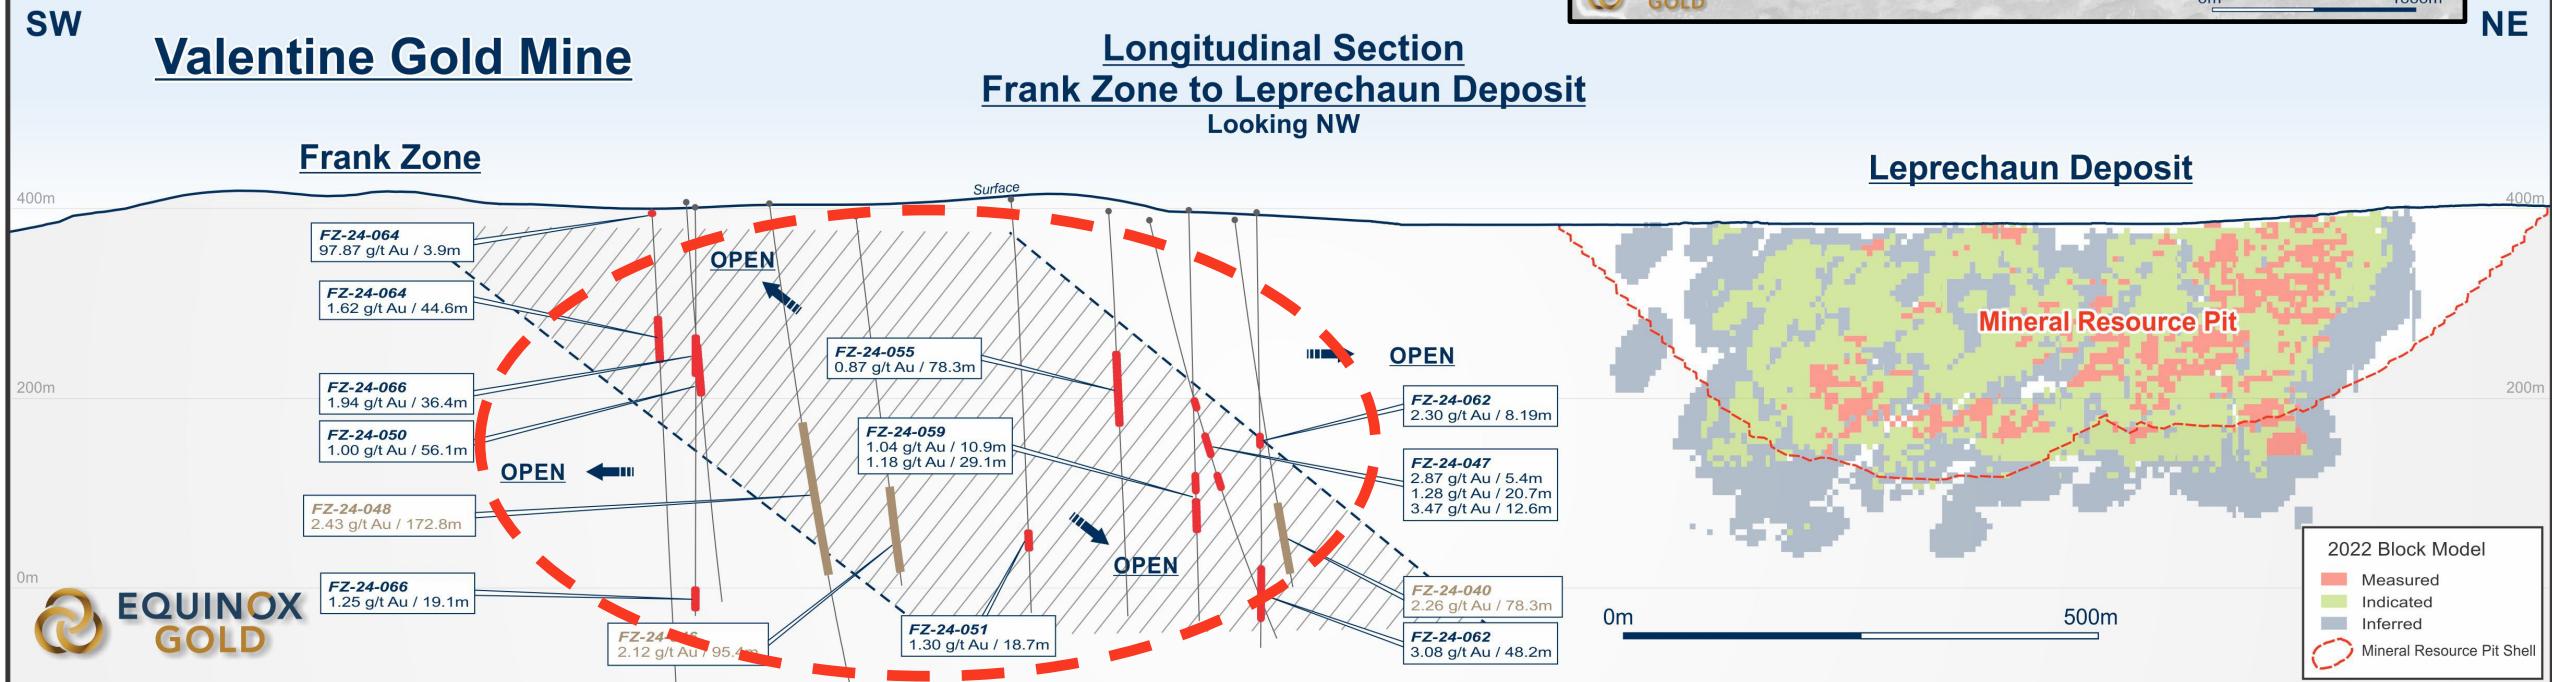

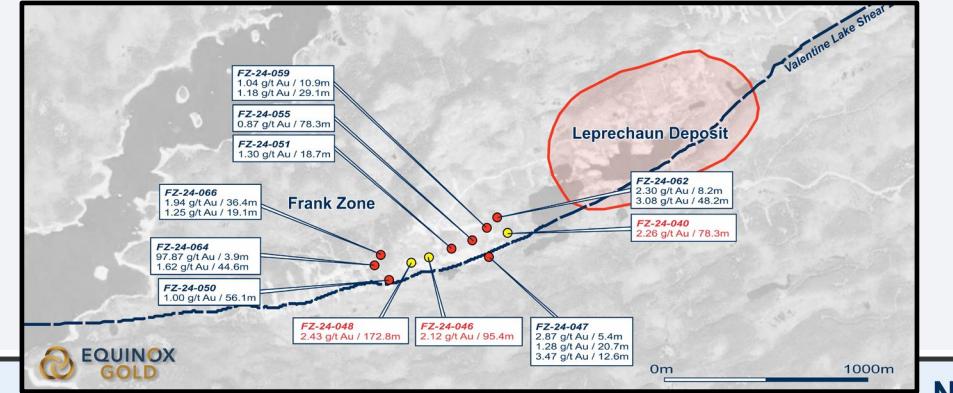

## Momentum into 2026

- Expect to reach nameplate capacity by Q2 2026
- Phase 2 expansion studies targeting 4.5-5.0 Mtpa throughput
- Significant exploration drilling underway
- Guidance of 150,000 - 200,000 ounces at all-in sustaining costs of \$1,200 - \$1,300 per ounce

# Valentine Upside: Multi kilometre Shear Zone with Significant New Discovery

- Discovery of new high-grade gold trending southwest towards new Frank Zone<sup>1</sup>
- Frank Zone discovery indicates additional open pit potential<sup>1</sup>
  - 2.43 g/t Au over 172.8 metres
  - 2.26 g/t Au over 78.3 metres, 3.08 g/t Au over 48.2 metres, 1.94 g/t Au over 36.4 metres, 1.62 g/t Au over 44.6 metres

1. Refer to the Calibre news releases November 25, 2024, February 5, 2025 and February 11, 2025.

# Growth Pipeline: +500,000 oz of Organic Growth Potential

**VALENTINE<sup>1</sup>**

Newfoundland, Canada

+225,000 oz/year  
14 year mine life  
2.7 Moz Reserves

**+225 koz**

With Phase 2 expansion  
to 4.5-5 Mtpa throughput

**CASTLE MOUNTAIN<sup>2</sup>**

California, USA

~220,000 oz/year  
12 year mine life  
4.1 Moz Reserves

**~220 koz**

Heap leach

**LOS FILOS<sup>3</sup>**

Guerrero, Mexico

~280,000 oz/year  
14 year mine life  
5.4 Moz Reserves

**~280 koz**

Heap leach  
plus CIL plant

**Significant exploration upside across the portfolio → investing \$70-\$80 million in 2026**

See Cautionary Notes. 1. Reserves, mine life and potential for production increase with Phase 2 expansion based on the 2022 feasibility study. Updated technical study expected in Q1 2026. 2. Reserves, mine life and potential for production increase with Phase 2 expansion based on the 2021 feasibility study. Permitting and engineering underway. 3. Reserves, mine life and potential for production increase with construction of a CIL plant and development of Bermejal underground mine based on 2022 feasibility study. Timeline for restart of operations and construction dependent on finalization of community agreements and development plan.

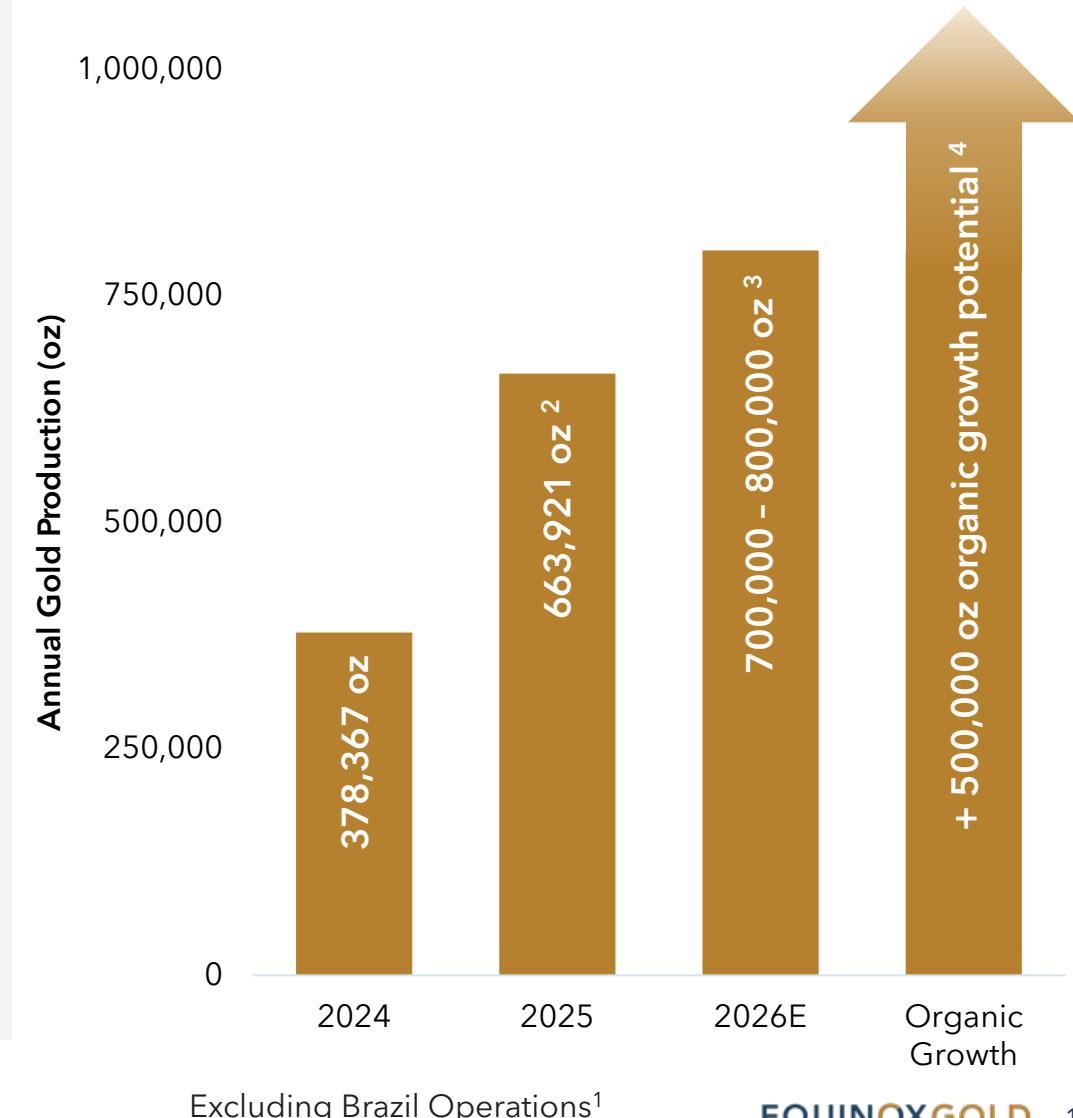

# Equinox Gold: Delivering a Top Quartile Gold Company

## Key metrics in place to deliver top quartile valuation

- ✓ Quality long life, high margin gold assets
- ✓ Located in Tier 1 jurisdictions
- ✓ That deliver into expectations

## Why Equinox Gold

- ✓ Experienced leadership, proven track record of execution and delivery
- ✓ Two new long life high-margin Canadian assets
- ✓ Growing cash flow from higher quality assets
- ✓ Deleveraging underway → \$800 million debt reduction in Q1 2026
- ✓ Evaluating potential return of capital to shareholders
- ✓ Flexibility to self fund +500,000 oz of organic growth from Valentine Phase 2 (Canada), Castle Mountain (USA), Los Filos (Mexico)

## ANALYST COVERAGE

BMO Capital Markets, Canaccord Genuity, CIBC World Markets, Cormark Securities, Global Mining Research, Haywood Securities, National Bank Financial, RBC Capital Markets, Scotiabank, Stifel Nicolaus, TD Securities

1. Basic common shares outstanding at November 4, 2025.

2. Weighted average exercise price shown is the price that would be paid to Equinox Gold to receive one full Equinox Gold common share. Option and warrant numbers are shown as the number of common shares that would be issued upon exercise of the securities.

3. Restricted Share Units are shares committed to management and directors that are issued subject to time-based and performance-based vesting terms, as part of equity-based compensation.

4. Fully diluted shares outstanding includes the common shares issued should the convertible notes be converted. See footnote 8.

5. Average daily shares traded since January 2025.

6. December 31, 2025 cash balance as announced in a new release dated January 14, 2026. Equinox Gold's Q4 and FY 2025 audited operating and financial results are expected to be released on February 18, 2026 after market close.

7. At September 30, 2025, Equinox Gold had an \$850 M Revolving Credit Facility of which \$680 M was drawn, a \$500 M Term Loan that was fully drawn, a \$312 M Sprott Loan and a \$3 M Lafise Bank Loan. Equinox Gold also has a \$350 M accordion feature of which \$150 M is available prior to full repayment and cancellation of the Term Loan. The Company repaid \$75 M in principal on the loans in Q4 2025.

8. Face value of two convertible notes: \$172.5 M note convertible at US\$6.30 per common share expiring in October 2028 and a \$35 M note convertible at C\$12.14 per common shares expiring in March 2030. If both notes were fully converted, Equinox Gold would issue 31.5 M common shares.

9. Calculated using the January 14, 2026 share price for Equinox Gold.

Guidance does not include production from Brazil Operations, which are expected to be sold in Q1 2026.

1. The Company may revise guidance during the year to reflect changes to expected results. See *Cautionary Notes*. 2. Cash costs per ounce sold and AISC per ounce sold are non-IFRS measures. See *Non-IFRS Measures and Cautionary Notes*. Consolidated AISC per oz sold excludes corporate general and administrative expenses. 3. Exchange rates used to forecast 2026 cash costs and AISC per ounce sold include CAD 1.34 to 1 USD and NIO of 35 to USD 1. 4. General and administrative expenses exclude share-based compensation.

# Leadership Team: Aligned With Investors

## Ross Beaty, Chair

Geologist and resource company entrepreneur with over 50 years of experience in the international minerals and renewable energy industries. Founded and is Chair Emeritus of Pan American Silver and since 1985 has successfully founded and divested a number of other public mineral resource companies. Past President of the Silver Institute in Washington, DC, a Fellow of the Geologist Association of Canada and the Canadian Institute of Mining, and a recipient of the Institute's Past President's Memorial Medal.

## Darren Hall, CEO & Director

More than 35 years of experience in the mining industry. Previously served as Chief Operating Officer of Kirkland Lake Gold, which acquired Newmarket Gold, where he also served as Chief Operating Officer. Held roles of increasing responsibility for Newmont Corporation, where he worked for nearly 30 years. Graduated with a Bachelor of Mining Engineering (Hons) from the Western School of Mines in Kalgoorlie.

## Blayne Johnson, Director

Co-founded and helped lead numerous successful companies, including Calibre Mining, Newmarket Gold and Terrane Metals. Brings over 38 years of experience in the investment community and currently serves as Chair of Featherstone Capital and Calibre Mining.

## Douglas Forster, Director

More than 40 years of experience in the mining industry and capital markets, having acted as a geologist, founder, director, senior executive and financier. Mr. Forster was Founder, President & CEO of Newmarket Gold Inc. which operated three gold mines in Australia with annual production of over 225 koz/year. Newmarket was acquired by Kirkland Lake Gold in a \$1 billion transaction in 2016. Mr. Forster holds a B.Sc. and M.Sc. In geological sciences from the University of British Columbia.

1. Based on publicly available information at January 12, 2026.

# Responsible Mining: Committed to Excellence<sup>1</sup>

## SAFETY

TRIFR<sup>2</sup> of 1.8 in 2025,  
25% better than 2024

## ENVIRONMENT

Zero significant  
environmental incidents  
in 2025

Initiated review of  
climate strategy based on  
changes to the business  
portfolio in 2025

## SOCIAL

99% of employees are from  
country of operations

70% of direct employees  
are from local communities

Significant community  
investment focused on  
education, health and  
culture programs

## REPORTING

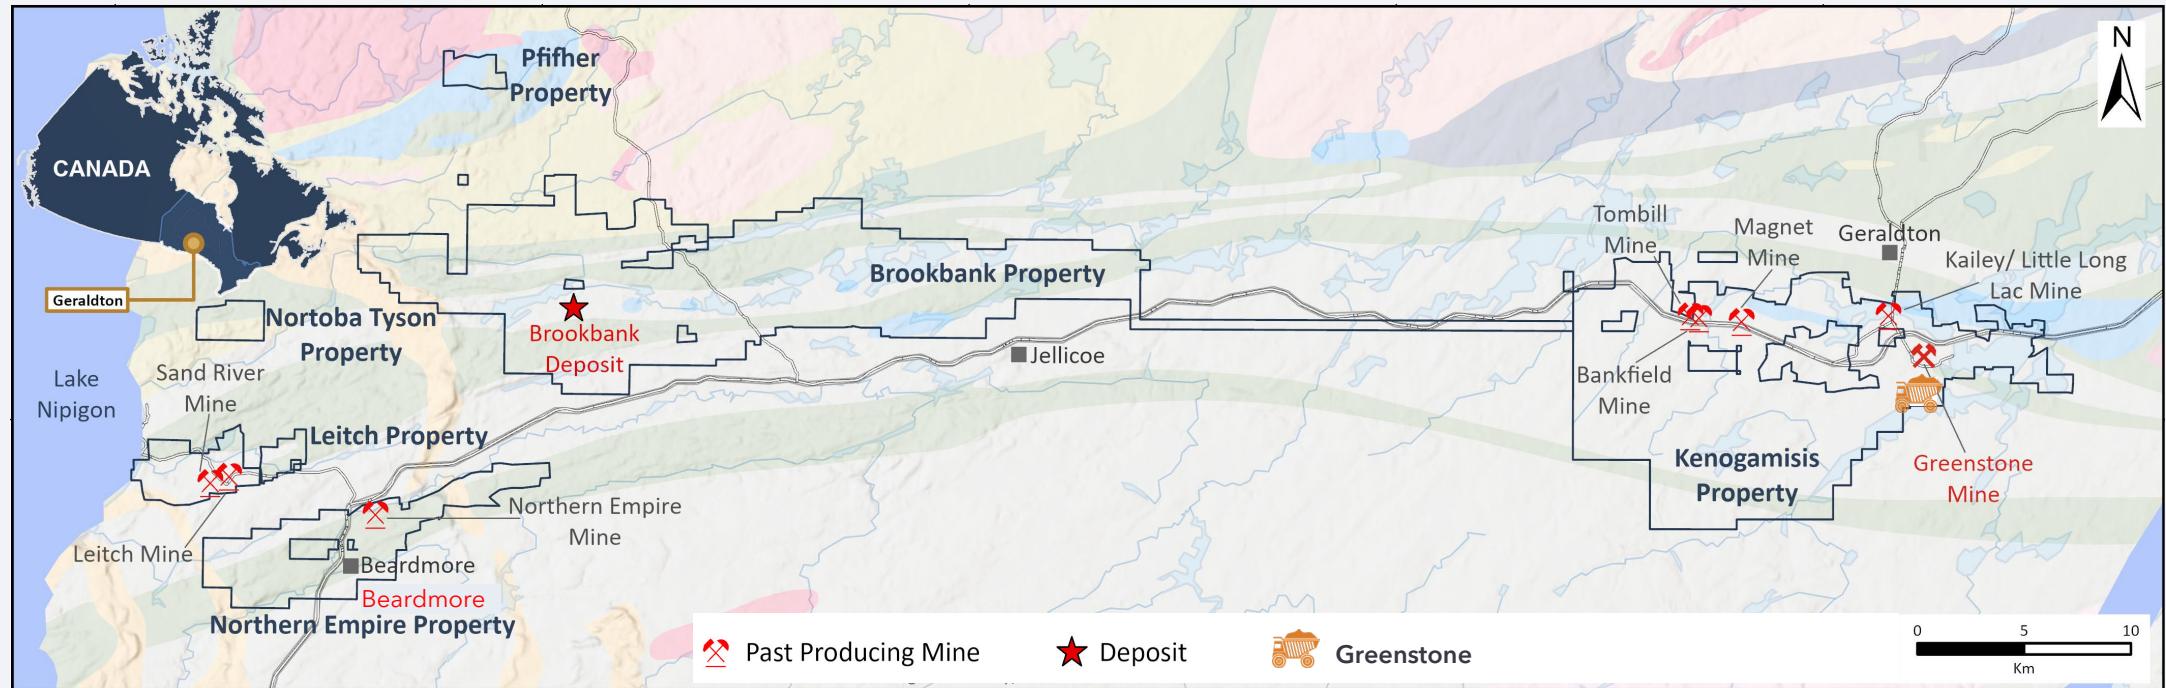

Publish annual ESG report  
based on GRI and SASB  
indicators

Initiated integration of  
Calibre mines into  
data collection and  
reporting process

Improved S&P Corporate  
Sustainability Assessment  
score by 15% vs 2024

1. Preliminary Equinox Gold 2025 ESG performance. More information will be provided in the 2025 Sustainability Report. 2. Total recordable injury frequency rate per million hours worked. 3. Significant environmental incident frequency rate (as defined by Equinox Gold's reporting standards, which are outlined in the Company's Sustainability Report) per million hours worked.

# Greenstone Upside: Near-mine and Belt-scale Exploration Potential

**Excellent discovery and growth potential** within the Beardmore-Geraldton Belt including:

- Two past-producing targets with combined 500 koz of M&I resources<sup>1</sup> within trucking distance
- Brookbank Deposit hosts 600 koz M&I resources<sup>1</sup> in high grade open pit and underground deposit
- Beardmore Property hosts three past producing mines with historical production of >1 Moz at grades >10 g/t gold with no modern exploration
- 396 km<sup>2</sup> land package with little to no modern exploration and >4 Moz gold historical production

1. See Measured & Indicated Mineral Resources, Inferred Mineral Resources, Technical Disclosure and Cautionary Notes.

1. Resources are exclusive of Reserves. 2. See *Cautionary Notes and Technical Disclosure*. Numbers may not sum due to rounding. 3. Measured & Indicated Resources shown pro forma the sale of Aurizona, Santa Luz, Fazenda and RDM. The transaction is expected to close in Q1 2026.

# Inferred Mineral Resources<sup>1</sup>

Mine/Project	Inferred		
	Tonnes (kt)	Grade (g/t)	Contained Gold (koz)
Greenstone	26,371	3.26	2,763
Brookbank	751	3.30	80
Kailey	4,858	0.87	136
Key Lake	1,839	1.39	82
Hasaga	2,059	7.31	484
Valentine	20,312	1.65	1,079
Mesquite	5,683	0.30	55
Castle Mountain	68,980	0.63	1,422
Golden Eagle	5,400	0.90	200
Los Filos	135,935	0.74	3,237
El Limon	6,332	4.43	902
La Libertad	3,391	3.09	337
Cerro Aeropuerto	6,052	3.64	708
Primavera	44,974	0.54	782
<b>Total Inferred</b>			<b>12,267</b>

1. See Cautionary Notes and Technical Disclosure. Numbers may not sum due to rounding. 2. Inferred Resources shown pro forma the sale of Aurizona, Santa Luz, Fazenda and RDM. The transaction is expected to close in Q1 2026.

# Technical Disclosure

## National Instrument 43-101

Scientific and technical information concerning the Los Filos Mine Complex is summarized, derived, or extracted from the "Updated Technical Report for the Los Filos Mine Complex, Mexico" dated June 30, 2022 with an effective date of October 19, 2022. Scientific and technical information concerning the Greenstone Gold Mine is summarized, derived, or extracted from the "Technical Report on the Greenstone Gold Mine, Geraldton, Ontario" dated October 1, 2024 with an effective date of June 30, 2024. Scientific and technical information concerning the Mesquite Mine is summarized, derived, or extracted from the "Technical Report on the Mesquite Gold Mine, Imperial County, California, U.S.A." prepared by AGP Mining Consultants Inc. dated April 27, 2020 with an effective date of December 31, 2019. Mesquite Mineral Reserve and Mineral Resources were updated at June 30, 2020 with the results announced in a news release dated October 8, 2020. Scientific and technical information concerning the Castle Mountain Mine is summarized, derived, or extracted from the "Technical Report on the Castle Mountain Project Feasibility Study" prepared by M3 Engineering & Technology Corp. dated March 17, 2021 with an effective date of February 26, 2021. Each of these Technical Reports has been filed with Canadian securities regulatory authorities and is available for review on Equinox Gold's website at [www.equinoxgold.com](http://www.equinoxgold.com), on Equinox Gold's profile on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca) and on Equinox Gold's profile on EDGAR at [www.sec.gov/edgar](http://www.sec.gov/edgar).

Scientific and technical information concerning the Valentine Mine is summarized, derived, or extracted from the "Valentine Gold Project NI 43-101 Technical Report and Feasibility Study, Newfoundland and Labrador, Canada" dated December 20, 2022 with an effective date of November 30, 2022. Scientific and technical information concerning the La Libertad Complex is summarized, derived, or extracted from the "Technical Report on La Libertad Complex, Nicaragua, Report for NI 43-101" dated March 29, 2022 with an effective date of December 31, 2021. Scientific and technical information concerning the El Limon Mine is summarized, derived, or extracted from the "Technical Report on El Limon Complex, Leon and Chinandego Departments, Nicaragua, Report for NI 43-101" dated March 30, 2021 with an effective date of December 31, 2020. Each of these Technical Reports has been filed with Canadian securities regulatory authorities and is available for review on Equinox Gold's website at [www.equinoxgold.com](http://www.equinoxgold.com) and on Calibre Mining's profile on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

Readers are reminded that results outlined in the technical reports for some of these projects are preliminary in nature and may include Inferred Mineral Resources that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as Mineral Reserves.

There is no certainty that the mine plans and economic models contained in any of the reports will be realized. Readers are further cautioned that Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability. Readers are also advised to refer to the latest annual information form and technical reports of the Companies as well as other continuous disclosure documents filed by the Companies, which are available on SEDAR+, for detailed information (including qualifications, assumptions and notes set out accordingly) regarding the Mineral Reserve and Mineral Resource information contained in this document.

## Technical Information

The scientific and technical information contained in this presentation related to the Greenstone, Castle Mountain, Mesquite, Los Filos, Kailey, Key Lake, Hasaga and Brookbank properties was reviewed by Philippe LeBleu, P.Eng., VP Mining Engineering and a "Qualified Person" for Equinox Gold under National Instrument 43-101. The scientific and technical information related to the Valentine, El Limon, La Libertad and Golden Eagle properties was reviewed by David Schonfeldt, P.Geo., VP Mine Geology and a "Qualified Person" for Equinox Gold under National Instrument 43-101.
